Subject: LUTC Committee minutes 3-21-24

Meeting convened at 7:08 pm

Attendees: Kelly Davis, Terry Parker, Susan Ferguson, Erik Mitchell, Kip Pheil, Laura Serason , Ed Gorman, Sharron Fuchs

Agenda- approved

Minutes- approved as edited

Normandale Meeting March 7, 2024 - notes submitted by Nick and will be attached to these minutes

Future of Sandy Blvd. RCPNA General Meeting February 27, 2024 - discussion as to how meeting went including breakout groups. Overall went well however people in groups were not aware of PBOT plans for Sandy Blvd. There seemed to be some commonality on themes raised between groups. Terry would like to have a list of common themes and suggested the RCPNA Board collate themes. Committee discussed PBOT plans for Sandy Blvd- road diet, bike lanes, remove parking. Concern raised for business and need for outreach.

Rose City Golf Course Walking Trail Project - walk through with a small group of people on February 23, 2024. Johnny Fain project manager. \$4 million budget. \$2 million from Metro \$2 million SDC system development charges. Discussed using gravel and wood chips for path. Perhaps a general meeting could be held with other directly impacted neighborhoods to discuss the trail and have upfront input.

Ed Gorman shared a potential vacation of PBOT land to Portland Parks in order to build the original 2015 70's Greenway plan with a separate multi use path and ADA compliant ramp up the East bluff. He also discussed PBOTs failures to comply with the Comprehensive Plan including the distance between connecting routes. The closure of the northbound lane of the Comprehensive Plan violates the distance between routes.

Laura to do outreach to Sandy Blvd businesses. Expressed concern about their vacancies and outer appearance.

Hollywood HUB - working on Max access first then building in Summer 2024.

Halsey Project- Nicole Pierce asked to come to April 2024 LUTC meeting. 47th - 63rd bid to go out. Construction Summer 2024.

Planters at 64th / Brazee need adjustment and reflectors placed. Sharron to keep contacting PBOT to get this done.

Outreach to the Ellington and their need for hygiene products.
