

There is a new entry kiosk at Rosaryville State Park!

There is a new automated kiosk at the entrance to Rosaryville State Park. You can pay the [Rosaryville day use fee](#) of \$3 per person using a credit card at the kiosk, but it can feel painfully slow. You can speed things up by snagging yourself a [Maryland Park Passport](#) and then making a stop at Cedarville State Forest to get a QR code sticker that works at the new kiosk. Picking up the sticker is quick and painless, it just requires a stop by the park office.

The kiosk does accept cash - and there will likely be a ranger there on the day of our event, so things should move smoothly...however we never know, so please arrive early and have cash available if possible. Thank you!
