

Random Wheel Spin Legacy Challenge

This challenge is designed to ruin the lives of your Sims! I created this challenge for my [Twitch Channel](#). Check it out!

While it's called a wheel spin challenge, the wheel is really just for visual effect. To choose your options use a number generator. Google has a great one that we'll be using for the purposes of our challenge. For each category input the correct maximum number and then generate your answer! Feel free to add additional options or change the existing ones to fit your game.

Basic Rules:

1. The goal of the challenge is to complete 10 generations of Sims whose lives are directly influenced by wheel spins.
 2. The wheel should be spun once a sim day and will directly affect your founder/heir.
 3. No cheats can be used unless they are necessary in fulfilling the wheel spin of the day.
 4. If you spin an outcome that requires a pack you don't have, spin again!
 5. Feel free to revamp the wheel between heirs to fit their personality and ensure you spin things you've never done before.
 6. Heirs will be decided by wheel spin, duh! You can spin the wheel for the heir whenever you choose but they will not be directly affected by the wheel's outcome until they're a young adult.
 7. For an increase in difficulty you can spin the optional wheels for toddlers, children, and teens in your household!
