Rebecca Jablonski

## DIRECTOR OF TEACHING & LEARNING

Katie Rein

## ACTIVITIES DIRECTOR

Emily Wizner

September 26, 2022

Dear parent / guardian of a 4th grade student,

Today your student participated in a STEAM Field Day with Lakeland Union High School and the Lakeland Area Consortium Schools. The 4th grade STEAM Field Day is all about building community with our consortium schools and those students building relationships with each other while learning about nature from a cultural perspective, in the school forest. This project is a collaborative effort planned by the elementary and high schools. Our high school students come from these elementary / middle schools; which are the 4th grade students that we are focusing the Field Day on. This diversity among our students strongly builds the need for a cooperative effort to build relationships at an early age through common experiences that build students as members of this greater community.

The backpack, supplies, and books your student came home with today was supplied as part of the grant funding from Wisconsin Library Services and the Trifecta Foundation Literacy Grant. This grant provided the means to put on this day for the 4th graders, allowing students to learn through the school forest.

Please ask your student to share their day with you and enjoy the many activities and ideas provided in the book your student brought home. Please note also that your students' teacher and the school library were given additional books related to the activities of the STEAM Field Day.

Please feel free to contact us if you have any questions.
