Why Are So Many Tradies Working 60+ Hours But Still Broke?

The shocking truth about where your time REALLY goes (and why you're trapped on the tools while your competitors get rich)

Sound Familiar?

If you're like most tradies, you're stuck in this vicious cycle...

- **You work all day on the tool** - then spend 3 hours every night doing quotes, invoices, and emails
- **You're always busy** - but somehow money is still tight and cash flow is unpredictable
- **You can't take time off** - because if you're not working, money stops coming in
- **Your family gets your leftovers** - weekends disappear into "quick job" and your kids barely see you

- **You can't switch off** - lying awake at 2 AM thinking about work, cash flow, and that quote you forgot to send

Here's the brutal truth: You don't have a work problem. You have a TIME problem.

You don't know where your time actually goes. You think you do, but you **don't**.

The Simple Truth That Changes Everything

Successful tradie business owners discovered something that broke them free from this cycle.

They tracked exactly where their time went for just one week. Not where they thought it went. Where it actually went.

What they found shocked them:

- They were spending hours on \$20/hour work
- High-value activities got pushed aside daily
- Interruptions were killing their productivity
- They were doing work others could do for less money
- Once they saw the truth, they knew exactly what to change.

What You Get in This Free Time Audit Kit

The Reality Check System

A simple 4-step method to track where your time really goes. Takes 2 minutes per day but reveals everything.

The \$500+ Activity Finder

Learn to spot which activities actually make you money versus the busy work that keeps you broke.

The Delegation Decision Guide

Know exactly which tasks to keep, which to give away, and how much to pay someone else to do them.

Daily Tracking Sheets

Ready-to-use worksheets that make the whole process simple and foolproof.

The Energy Audit Method

Discover which activities drain your energy versus the ones that give you energy (this changes everything)

What Happened to Other Tradies Who Used This

"My lifestyle has been the biggest change. I can spend time outside of work enjoying myself now and having weekends back has been great. I learned how to manage employees, implement processes, price jobs for profit. I have more employees now."

- Joel, M-Elec Electrical

"Before this I was super busy, had poor time management, no invoicing was getting done, cash flow was poor. Now my time management has improved massively. My cash flow is consistent because I dedicate a full day to invoicing and quoting."

- Ben, Klein Plumbing & Gas

"Before I was working 40+ hours on the tools then doing all the invoicing after hours. Now I have work-life balance. I can spend more time with my family which was the most meaningful change."

- James, J Turner Constructions
