3	08-05-2026	Mobile Apps Notification Not Working for KPJ Penang	Ezwan/KPJ	Yes	send_notification_v1.php		<p>Issue: I checked the office server backup database stored procedure sp_send_notification and found that the JSON payload contained an empty key ("") instead of a proper key name (message). I updated the file to correct the payload structure, and the notification is now working properly.</p> <p>In WebWork, please update send_notification_v1.php as well. I have deployed the updated file to the office server. Kindly test it before proceeding further.</p>  		Done	Sekhar
