

Always Sparkle by Kyle: Sparkle Kyelle's Story The #AlwaysSparkleInitiative | Every Heart Matters

In loving memory of Sparkle Kyelle and in honor of her brother, Kyle

About Sparkle Kyelle

Sparkle Kyelle was born on 22 August 2025, a bright and beautiful baby whose life began with extraordinary courage. At just one week old, she underwent a full surgical repair for Total Anomalous Pulmonary Venous Return (TAPVR), a rare and complex congenital heart defect. In the months that followed, Sparkle Kyelle faced repeated cardiac catheterizations, pulmonary vein stenosis, pulmonary hypertension, infections, intensive care admissions, emergency interventions, and stenting, yet she met every challenge with remarkable strength.

Our vision is a world where every CHD-affected person receives timely, professional, compassionate, and safe healthcare; every family receives information, emotional support, dignity, and hope; and every grieving sibling is seen, supported, and surrounded by care.

After many months of treatment, Sparkle Kyelle was finally discharged home, stable and feeding orally. Her family believed they had entered a new chapter of healing and hope.

On 3 June 2026, Sparkle Kyelle developed a fever and was rushed to the hospital. Because of her fragile cardiac history, her family expected urgent assessment, close monitoring, and timely escalation. Instead, her condition worsened overnight, and she passed away on 4 June 2026.

Sparkle Kyelle's life and her passing revealed a truth that guides this mission: **Medically fragile children must never be treated as routine cases. Parents must be heard. Symptoms must be escalated. Emergency systems must respond quickly.**

Always Sparkle by Kyle exists because Sparkle's story must never be repeated. Her name now stands for children whose symptoms must be taken seriously, parents whose voices must be respected, and families navigating CHD who deserve information, dignity, and hope.

This initiative also honors her brother, Kyle, born exactly two years apart. They shared a birthday, a bond, and a love that continues today. Kyle carries the grief of losing his sister and closest companion and he is the reason this mission includes siblings, ensuring they are seen, supported, and never forgotten.

Sparkle Kyelle's story is one of courage, love, and purpose. Her light continues through every act of advocacy, every family supported, and every heart we help protect.

Every Heart Matters.
