

Department of Electrical and Electronics Engineering

Academic Year: 2021-2022

Semester: VI

Batch: 2019-2023

Subject Code: EE18612

Subject Name: EE18612- Industrial Automation Laboratory

Online PLC Ladder Logic Program Simulation Demonstration:

- The demonstration on PLC ladder Logic Programming was given online and explained the usage of instructions such as NO/NC contacts, Coils, Timers, and Counters.
- Few basic programs were designed and explained such as Logic gates and controlling three loads with different time delays using on-delay timers.
- Screenshot Proof for Simulation Demonstration.
