

# ***One Montessori World Global Project***

## **November Enrichment Activity**

Dear Parents,

Over the past few weeks, we have been busy working on our enrichment project as a group. Please continue to visit our global project blog at [www.onemontessoriworld.blogspot.com](http://www.onemontessoriworld.blogspot.com). We completed our “digital handshake” greeting and we are now awaiting a response from our Montessori friends in Madrid.

This month, we are focusing on Geography! Students are asked to complete this enrichment homework research assignment due on 12/2/13. Students should use a separate sheet of paper and answers should be in complete sentences.

Please contact me if you have any questions!

Warm Regards,  
Betty Jane Mackay  
Montessori Lead Teacher
