

RIVER OAKS: MIXED MEDIA

Overview

Your grade will be based on completion of both required assignments and individual, self-guided projects. Each student is required to complete a series of video projects that are related to the promotion of the school: interviews with faculty, students, parents, and alumni; videos of events in the arts, academics and athletics. These projects will be assigned by the instructor, and often will be completed in groups.

Each of the individual creative projects must be approved by your instructor after the submission of a proposal. The guidelines for the proposal follow:

- Typed and submitted via Google Docs, with the filename "lastname - proposal #"
- Should begin with an MLA heading, stating your name, course and date
- The project description, purpose, and timeline should all be clearly stated in the proposal
- Use the following template

Your Name
My Name
Course
Date

Title of Project

Project Description (at least 100 words)

Text text text text text text text text text text
text text text text text text text text text text
text text text text text text text text text text
text text

Project Goals and Timeline (at least 100 words)

text text text text text text text text text text
text text text text text

Each submission of final projects will be informally shared with the class (and the Internet via YouTube). Grades are typically pass/fail, with participation in group projects considered a requirement for credit.
