Group leaders are responsible for creating both the group's original Google Doc and Google Slides. After creating these items, group leaders will need to use the gmail listed to share and invite their team members and the instructor to both sites.

Google Doc- Each group will use their created space to discuss who is responsible for what in your presentation. Be sure and invite me to this Google Doc using: dcaspermgsc@gmail.com

Google Slides Presentation-Take the information from your Google Doc and collaboratively put together a Google Slides presentation. Don't just copy and paste all of the written information on to the slides. I would suggest pulling out the important parts and making bulleted lists on each slide. Your group's ten-minute presentation will be delivered to the group on **March 25th** at the beginning of class. Be sure and invite me to this Google Slides site using: dcaspermgsc@gmail.com.
