

Computer Science Course requirement from Senate Bill 5088.

The requirement, in sum: *Starting this school year, Washington State requires each high school provide the opportunity to access a Computer Science course that is available to all high school students (SB 5088).*

- ESD 113 has identified multiple available supports to meet the requirement in our [District Support Document](#) (one-pager)

If you have questions or want to talk about the requirements of SB 5088, please contact Shannon or Joel (below) or explore this Computer Science [Curriculum Selection Guide](#) (click-through slides).

ESD 113 Regional Administrators for Educational Technology and Computer Science

- [Joel LeBel](#)
- [Dr. Shannon Thissen](#)

Ready to take action now? To get a quick start on the process, consider signing up teachers for a [Fall 2022 training](#) (and be in compliance by January 2023) --- FREE to qualifying districts

Integrating Computer Science opportunities and electives in high schools is exciting and, at times, a lot of work. The good news is that ESD 113 is here to support you through the many steps along the way.
