

Setting Level and Destination

Before your students can start studying, you'll need to establish **Settings**. To access all settings, click on the wheel icon on your classroom card.

Note: A student's Level is where they currently are in their understanding of the content. Destination indicates the highest level of material a student will have access to. We recommend that you:

- Set Level slightly lower than where you think the student is in their understanding.
- Set Destination a few grades ahead of your students so they have access to more challenging material as well.

On the Student Settings card, select the desired **Level** and/or **Destination** for your student from the drop-down menus. Then, click “Apply Settings” (see image below).

STUDENTS		MATH LEVEL	DESTINATION	STUDENT-ID	ACTIVE
	Adkins Adele	Grade 5 ▼	Grade 8 ▼		☒ Yes 
	Austen Jane	Grade 6 ▼	Grade 8 ▼		☒ Yes 
	Baggins Frodo	Grade 6 ▼	Grade 8 ▼		☒ Yes
