

Ivy Tech APHY101 Tissues Part Four: Tissue Repair and Membranes

- 1. What is the body's first response to injury?**
- 2. What are the two different forms of *tissue repair*?**
- 3. What determines whether or not a wound will undergo *fibrosis* or *regeneration*?**
- 4. What replaces injured tissue after an extensive injury?**
- 5. What are the three types of *primary germ layers*?**
- 6. What layer(s) form epithelial tissue?**
- 7. What layer(s) form muscle and connective tissues?**
- 8. What layer(s) form nervous tissue?**

9. What are the three types of membranes that line organs?

10. What types of tissue are these membranes made of?

11. Which membrane(s) are dry and which are wet?
