

There are a lot of things, not talked about, and one of them is the struggles war veterans go through.

What do they go through and how does their life change after the military?

Are some questions we still have no answer to.

The major challenges in their life are:

1. Unemployment.
2. Relationship with themselves.
3. Homelessness
4. Physical Handicaps.
5. Poor mental health.

As a team together in Dignity of Noble we take privilege in helping people with Barriers.

We have taken the initiative to start Dignity of Noble as a supportive medium so that even after they are away from the military, they don't lose their identity, and they can find themselves, employed with a fulfilling life.

We understand the importance of having a secure life, and we came forward to do exactly that. Bringing out the talents in them so that they can find a stage for themselves.
