Subject: Coloring pages feel better when you see the colors first

If you've ever opened a coloring page and felt unsure where to start, you'll understand this.

Most coloring books give you line art and nothing else.
No guidance. No mood. No idea which colors actually work together.

That's exactly what makes **The Color Emotion Coloring Pack** different.

Instead of guessing, each page comes as a complete set:

- a colored preview to show the mood
- a swatch card to test your colors
- clean line art that's ready to color or print

Once you see the preview first, coloring becomes calmer and more enjoyable.

 Bonus:

You also get 100 icon-style swatch cards, 100 color-matched stickers, and a full guide on how to expand and reuse the pack.

Subject: This is not a normal coloring pack

When most people hear "coloring pack," they imagine random line drawings.

That's not what this is.

The Color Emotion Coloring Pack is built around **color emotions**, not just drawings.

Each design follows a simple structure:

Preview → Swatch → Line Art

So instead of asking "What colors should I use?",
you already know the intended mood before you start.

The pack is organized into 5 clear color emotions:

Cool & Calm, Joyful & Bright, Dreamy Pastel, Minimal & Clean, and Warm & Cozy.

 Bonus included:

- 100 Icon Swatch Cards (great for testing palettes)

- 100 Color-Matched Stickers
- The Coloring Page Expansion Guide

Subject: Who this coloring pack is actually for

This pack surprised me with how many ways it can be used.

It's great for:

- kids who need color guidance
- adults who want relaxing, mindful coloring
- teachers or parents creating activities
- creators selling printables on Etsy
- publishers making coloring books for KDP

And yes — it comes with **full PLR rights**, so you can rebrand or resell if you want.

 On top of the main pack, you also receive:

- 100 icon swatch cards
- 100 matching stickers
- a step-by-step expansion guide

It's more than just coloring pages — it's a complete system.

Subject: Why coloring by emotion works so well

Color does more than fill space — it creates emotion.

The same drawing can feel calm, happy, cozy, or dreamy just by changing the palette.

That's the idea behind **The Color Emotion Coloring Pack**.

Instead of random designs, everything is grouped by emotion, so the results always feel intentional and cohesive.

You're not just coloring a page — you're choosing a feeling.

 Bonus reminder:

The pack also includes swatch cards, stickers, and a full expansion guide to help you get even more value from the content.

Subject: Everything included for \$17 (no guesswork)

For \$17, **The Color Emotion Coloring Pack** includes:

- 300 colored preview pages
- 300 clean line art pages
- 300 swatch cards
- 5 organized color emotions
- full PLR license

 Plus these bonuses:

- 100 Icon Swatch Cards
- 100 Color-Matched Stickers
- The Coloring Page Expansion Guide

Everything is delivered in high-quality formats and backed by a 30-day money-back guarantee.

If you want a coloring system that removes guessing and saves time, this is worth a look.
