## Jobs

# **BOSTON COLLEGE DINING SERVICES IS HIRING HIGH SCHOOLERS**

Open positions: servers, utility/dishroom,  
kitchen help, waitstaff

Great training, good experience and  
fun work environment  
Can start work Sunday, August 25th

**Youthscapers:**

The BTC promotes youth employment through our Youthscapers program. It allows high school students to gain employment experience through performing community jobs. These jobs can include yard work, lawn mowing, car detailing, snow shoveling, and light moving services.

**Interested? Email [youthscapers@brooklineteencenter.org](mailto:youthscapers@brooklineteencenter.org), include a resume!**

**Rehl Gardens:**

Gardening/Landscaping Help Wanted

Rehl Gardens, one of MetroWest Boston's leading Fine Gardening companies is looking for summer help in managing beautiful gardens.

You will work with supervisors and staff to learn all aspects of commercial gardening. Training is provided. The work includes planting, weeding, mulching and pruning. This is a great opportunity to develop references for college admissions and for your future job search. You will also learn important life skills including; teamwork, leadership skills and responsibility.

We have full-time and part-time positions available with flexible hours.

We don't necessarily follow the typical landscaping operation of having our staff meet at our building, load the crews in trucks and drive off. Optionally we have our crew members drive their own vehicles to the properties where they are working each day. If you drive your vehicle we pay mileage between properties, but not for the drive from your home to the first property or your drive back home after the last.

Good physical condition, a positive attitude and the ability to work in all kinds of weather are also required.

If you are interested in this opportunity please contact Jon at [jobs@rehlgardens.com](mailto:jobs@rehlgardens.com)

- Self-motivated outgoing person
- Strong multitasking skills
- Stays calm under pressure and can handle busy rush periods in store
- Ability to stand and walk for long periods of time
- Demonstrated commitment to teamwork and customer satisfaction

### **About the Company**

Twins Retail, LLC is the company behind the Red Sox Team Store and its present-day success comes from never forgetting its roots. In 1947, twin brothers and Italian immigrants, Arthur and Henry D'Angelo founded Twins Enterprise, Inc, which has grown and split into Twins Retail, LLC and '47 Brand, LLC. The D'Angelo's were entrepreneurial pioneers who were quick to see the future of sports licensing by selling pennants and other sports memorabilia on the streets around Fenway Park. Through a combination of hard work, sound instincts and incredible passion, the brothers were able to grow their business from a single street cart to the Red Sox Team Store and '47 Brand, LLC which is a premier sports lifestyle brand that uniquely melds sport and style.

**Based on our hour requirements and in accordance with the Massachusetts work permit laws for minors under 16, we are only taking applications from those age 16 and above.**

**Early Risers Assistant Teacher:**

Early Risers is a private daycare center located in the heart of Brookline Village. We are looking for energetic, creative, and caring high school students to help in our infant, toddler, preschool and pre-k classrooms (ages 3 months to 6 years of age) this summer! Previous experience working with young children is preferred, but not required. Student must be at least 16 years of age. If interested, please email Teresa Greenberg at [tgreenberg@earlyrisersbrookline.com](mailto:tgreenberg@earlyrisersbrookline.com).

### **Camp Sewataro:**

Camp Sewataro in Sudbury is hiring camp counselors for summer 2024! To learn more about their program, check out their staff page [here](#).

The positions open for high school students at this time are:

- [Group Assistants](#)
- [Lifeguard/LGT Swim Instructors](#)
- [Activity Assistants](#) (Fishing, Tennis, Golf/Paintball, and Crafts)

Group and Activity Assistant salaries start at \$4,000, while the LGT Swim Counselors start at \$5,000 for eight weeks of camp. They provide free transportation from your town!

### **PedalBikes Instructors:**

Apply here: [Summer Instructor - \\$15/hr](#)

Come join the Pedalheads team this summer! We are looking for camp leaders who will run our bike/trail children's summer camps in the Boston area.

***NO EXPERIENCE NECESSARY, TRAINING PROVIDED, HIRING CANDIDATES 18+, FLEXIBLE SCHEDULING***

#### **Who are we:**

We are a fast-growing leader in children's programming who offer high-quality bike and swim lessons across North America.

#### **Why you'll love working at Pedalheads:**

*You will:*

- Gain leadership experience and growth opportunities that develop you for any future career (bonus: get a reference letter)
- Work with people in a fun, team environment where peer friendships often last a lifetime
- No experience necessary! We provide all your training, and we pay you for it too
- Work daytime hours outdoors with no weekend work (work in sunglasses and comfy attire!)
- Inspire kids to believe in themselves. There is no feeling like it!

**The Opportunity:** We're looking for a Bike Instructors for our Summer Camps to join our team.

Here's how this job plays a role:

As a bike instructor you will spend your days outside while inspiring the next generation of cyclists. It's active, it's adventurous, it's fun and it's incredibly rewarding.

You don't have to be a bike expert because we provide training for our programs for you to get going in your new role!

· **WORK DATES:**

· **Work dates vary based on locations but range from June to mid August 2024**

· **LOCATIONS:**

· **We have camp locations in the following areas: Newton, Belmont, Cambridge, Jamaica Plain**

**What you'd be responsible for**

In addition to sharing your ideas on how we can grow, learn and build, in this role, you'll also be:

- Teaching our daily Pedalheads camp programs for children ages 2-12 years
- Actively introduce children new bike skills
- Ensure the health and safety of children at camp
- Act as a positive role model and leader at all times
- Communicate regularly with parents about their child's progress

**Skills, knowledge and experience**

Here are some of the skills/ specifics and experience that are important for this role:

- You will be at least 18 years of age by the start of camp
- Comfortable leading a group of up to 6 children (training provided)
- Committed to keeping our campers safe
- You are energetic, creative, motivated and fun
- Hold or willing to get a current Standard First Aid with CPR-C certificate
- Background Check
- You have access to a bike and helmet and are able to ride a bike proficiently

**Ready to apply?**

You do not want to miss out on this amazing opportunity- positions are filling up quickly so apply today!

**Successlink Youth Jobs: For Boston Residents ONLY**

We employ Boston's youth at nonprofits, community-based organizations, and City agencies during the Summer and the school year! Applications for the 2023-2024 school year are now live!

<https://www.boston.gov/departments/youth-employment-and-opportunity/successlink-jobs>

**BU Fitness Recreation is hiring!**

**Lead Counselor (17+)** The lead counselor is responsible for the supervision of 16+ children and delivering the curriculum, while making sure everything runs smoothly. Whether it's setting up for the activity, talking with parents, or delegating tasks to jr. counselors. \$525 per week. Hours 8:30am to 3:30pm

**Junior Counselor (16+)** The jr. counselor is responsible for helping set up the materials for the lead counselor, cleaning materials, helping the kids with their build or stop motion, and helping with the overall supervision of the children. \$490 per week. Hours 8:30am to 3:30pm

**Counselor in Training (14-15)** The CIT position is a volunteer position. CIT's will be trained to become a counselor, in the future, with LetGoYourMind.

**Locations: Brookline, Westwood, Newton, Canton**

Contact Jim Harvey [jim@letgoyourmind.com](mailto:jim@letgoyourmind.com)

Apply at <https://www.letgoyourmind.com/contact/employment/>

**Dexter/ Southfield Camps are hiring:**

**Everwood Day Camp is hiring!**

<https://everwooddaycamp.com/staff/available-positions/>

**Camp Counselors at Grossman and Camp Kaleidoscope:**

<https://www.bostonjcc.org/careers/#positions>

### **Summer at Park: Camp Counselor and Lifeguard positions**

Counselors: Summer at Park is hiring counselors to work at Summer at Park this summer. Camp hours are Monday through Friday, 8:15 am to 3:45 pm, with the possibility of additional hours for AM Extended Day (7:15 am to 8:15 am) or PM Extended Day (3:00 pm to 6:00 pm)

Counselors. Competitive pay and excellent working conditions for all available positions.

Lifeguards: Summer at Park hires certified lifeguards to work at Summer at Park and the Swim Club at Park. Hours are flexible and include weekday, weeknight, and weekend shifts:

competitive pay and excellent working conditions for all available positions.

**To find employment opportunities and apply, visit the website:**

<https://www.summeratpark.org/join-our-team>

### **The Country Club, Brookline, MA:**

There are a series of different positions available. More job opportunities will be updated.

**To see job openings:** <https://bit.ly/2ORNuTm>

**Commonwealth Lifeguarding Opportunities 2024:** Recruiting lifeguards for our state waterfront parks and swimming pools for the 2024 season.

Lifeguards are essential for managing pool and beach areas and ensuring the safety of our public.

**Each of the 2024 positions comes with a highly competitive salary.** As a DCR Lifeguard, students will be on a fun team that makes a difference. Lifeguards learn many transferable skills such as leadership, communication, quick decision making, and staying calm under pressure.

Obtaining a highly responsible job as a lifeguard is also a great resume builder for future endeavors or college applications.

- Applicants must be at least 16 years old by their hire date and certified through Labor Day of 2024 (September 2, 2024). **Not certified? No problem!** DCR offers a limited number of free lifeguard certification courses for qualified lifeguard candidates, provided you work for us in the summer of 2024. Certification classes will be running this winter and spring. We will work with any candidate who is interested and determined. However, we do require a swim test that will be administered before the lifeguard training course to advise the applicant if their swimming skills, endurance, and fitness levels are on par with the physical demands of a lifeguarding job.

To apply: <https://www.mass.gov/guides/dcr-lifeguarding>

### **Goldfish Swim School, Brookline: Team Members, lifeguards, swim instructors and more:**

At Goldfish, you'll be part of a team that is working to educate kids and keep them safer in and around the water. There are many job opportunities out there – but how many can say that they provide an instrumental community service by teaching a lifesaving skill?

What We're Looking For:

- Someone with a friendly, enthusiastic attitude
- Someone that loves to help and go above and beyond for everyone that walks through our doors
- Someone ready to learn about swim lessons (a lot)

We welcome experienced customer service or aquatics professionals and novices alike! We'll provide the training you need to feel confident working in any part of our facility - pool, desk, or management.

We take pride in our exceptional customer service and it's up to each of our team members to create the golden experience that our customers deserve! So, whether you have experience in the industry or no experience at all, we're always looking for passionate and enthusiastic people to join our crew.

Sound good to you? **Then apply today here:**

**<https://goldfish-swim-school-brookline.careerplug.com/account>**

**Grocery Stores:**

- Trader Joes
- Star Market
- Stop and Shop
- Wegmans

**Check out: Career Opportunities at Town of Brookline**

This website provides seasonal job opportunities:

<http://brooklinema.hrmdirect.com/employment/job-openings.php?search=true>

**Counselor at Brimmer Summer Camp:** They are seeking dynamic, responsible people ages 16 years old and up, interested in being a camp counselor working with campers ages 4 - 11 for our general Day Camp.

Here is a [LINK](#) to the website for information about the camp and the jobs. Here is a [LINK](#) to the job application.

Interested people should send in the application to [camp@brimmer.org](mailto:camp@brimmer.org) and they will be in touch with you! Any questions? Email Cassie Abodeely, [CAbodeely@brimmer.org](mailto:CAbodeely@brimmer.org)

# Internships

**Protocol Internship:**

Protocol is a pioneering healthcare company focused on extending healthspan - the number of years someone lives in good health. We combine world-class concierge primary care with the latest in longevity science, preventative lifestyle practices, and personalized protocols tailored to each member's health data and goals.

**Internship Overview:** Protocol is offering a paid 8-10 week summer internship for high school students interested in marketing, community outreach, and helping promote our mission of extending healthspan. Interns will be the "feet on the street" supporting our marketing efforts by distributing materials, posting flyers, and seeking out potential community partners.

#### Key Responsibilities

- Conduct research to identify potential locations to distribute marketing materials (community centers, health clubs, medical offices, etc.)
- Seek necessary permissions and approvals to post flyers/leave brochures at locations
- Distribute flyers, posters, and brochures about Protocol's services around town
- Serve as local support for our virtual marketing assistant, completing assigned tasks
- Identify and report on potential community partners for cross-promotion
- Provide feedback on local marketing efforts and suggest improvements

#### Qualifications

- Current high school student, age 16+
- Comfortable with public interaction and community outreach
- Ability to travel around town via public transit, bike, etc.
- Strong communication and organization skills; access to cell phone and laptop
- Enthusiasm for Protocol's healthspan mission

To Apply Please submit a resume and short paragraph explaining your interest and qualifications to [info@protocol.us](mailto:info@protocol.us).

Protocol is an equal opportunity employer committed to diversity and inclusion.

## **Growing Empowerment:**

### **Application**

**Program mission:** Growing Empowerment trains young people to grow healthy and sustainable food, examine the food we consume through the lens of race and heritage, and cultivate a social justice vision to take greater control of our food system

### **Program outline:**

- Students meet Monday-Thursday for 4 1/2 weeks, 9am-2pm (excluding July 3-4) July 1st- August 1st.
- Earn \$25/hr and 1/4 credit (credit not yet confirmed)
- Indoor/outdoor learning time: focus on food justice (exploitation and resilience in the food system); traditional foodways of African and indigenous people; immigrant labor in agriculture; personal exploration of heritage and relationship to the food system, climate and health, and more.
- Produce food in Brookline school gardens.
- Weekly trip to food justice sites (Urban Farming Institute; Food Project; Mei Mei; Dorchester Food Coop).

## Chestnut Hill Realty

Residential Property Management

# Horticulture Internship

The Chestnut Hill Realty Paid Summer Horticulture Internship program offers students the opportunity to learn about the Horticulture industry from a hands-on perspective. Learn the introductory skills and tools needed for a starting point in the field of grounds maintenance/management including: design, installation and maintenance of seasonal flower displays, turf and landscape bed maintenance, ornamental shrub pruning and general repair and maintenance of landscape equipment. Other potential learning areas include landscape construction management, ornamental plant ID and landscape irrigation management.

### *Immersive Learning in:*

• **Seasonal Flower Displays** – Learn and develop the skills and tools needed for stunning seasonal flower bed displays. Learn plant identification, design, installation and maintenance for a continuous and show-stopping bloom.

• **Turf and Landscape Bed Maintenance** - Learn the safe use of tools and equipment needed for turf and landscape bed maintenance, steps to take before cutting a lawn, how to get that perfect stripe and edge, how to keep your beds clean and identify and manage current and potential weed/pest problems that could impact your landscape. Equipment use may include mowers, trimmers, blowers and hand tools.

• **Ornamental Shrub Pruning** - Learn the skills and tools needed to properly prune and maintain ornamental plants for health and functionality. Learn the proper timing, pruning types and requirements needed for a year round display. Tool use may include, hand pruners, battery powered shears, hand/pole saws and orchard ladders.

• **Equipment Repair and Maintenance** – Learn the basic skills of equipment repair and maintenance to keep your tools in top operational performance. Equipment repair may include, inspecting, cleaning, changing oil/filters, and general miscellaneous maintenance of hand tools and power equipment.

• **Miscellaneous Learning Areas** - Learn and assist in various areas of horticulture such as landscape construction management, irrigation repair and maintenance and plant selection and identification. Learn about and participate in the company's Nature Positive Initiative to promote ecosystem conservation.

### **Requirements:**

- Hours will be 7a.m. - 3:30p.m., Monday through Friday
- Enrollment in formal education program
- At least 16 years of age
- Ability to work in all adverse weather conditions
- Limited duration, approximately 3 months
- Strong desire to increase knowledge in Horticulture
- Ability to work on a team

## Change Creators: Summer Internship:

CSTO's Change Creators Programs are looking for high school students (ages 14-19) to join our **STIPENDED Summer 2024 Internship!**

In our Change Creators program, interns learn Photography, Video Production, and Event Planning. ## **Sparking Creativity Intern:**

### **Overview:**

We are seeking a creative, and dependable intern to work with Tanya Paris - a kindergarten teacher, published children's book author, and teacher entrepreneur. If you are tech-savvy, social media-minded, and have a passion for education, this internship provides an exciting opportunity to work alongside an experienced educator and to promote her educational resources.

- Location: Virtual
- Duration: Ongoing
- Hours: 4 to 6 hours per week
- Compensation: Unpaid

### **Responsibilities:**

Digital Resource Promotion:

- Create videos and previews of curriculum materials to showcase their effectiveness.
- Create covers of resources to be uploaded to online platforms.

Social Media Management:

- Manage and update social media accounts, including but not limited to Facebook, Instagram, and LinkedIn.
- Create and schedule daily posts to promote the author's work and highlight key features of her materials.

### **Benefits:**

- Hands-on experience in multimedia content creation and social media management
- Opportunity to contribute to the promotion of educational resources and author's work
- Exposure to the intersection of technology, education, and marketing
- Free enrollment in her digital course: Building Strong Foundations - Sparking a love of Reading with Decodable Stories

Learn more at [Tanya Paris' Author Website](#)

## **New England Aquarium Teen Internship**

The New England Aquarium's Teen Internship program provides job experience as well as job skills coaching and mentoring. We aim to empower and provide teens with the opportunity to become engaged in our Aquarium operations and play a key part in our conservation & education efforts. Over the course of the seven-week long program (one-week training and six weeks of work) Teen Interns will be provided an opportunity to work in the Visitor Experience or Conservation Learning department. Applications are due on March 23rd, 2024. Interviews will be conducted shortly after the application closes.

To apply: <https://neaqteenprograms.applicantpro.com/jobs/3233110-466668>

### **Brookline Fund to Increase Diversity in Architecture and Design (Studio MLA and Boston Architectural College Program):**

Application Form for a Scholarship from the Fund

The scholarship is a three-part summer program aimed at under-resourced high school students of color (rising juniors and seniors) curious about exploring a potential career in architecture and design. The program will consist of up to one week of shadowing at studioMLA Architects, preceding the student's attendance at either the Boston Architectural College Summer Academy Program (4 weeks in July) or the UMass Amherst Summer Design Academy (3 weeks in July) with weekly check-ins at studioMLA, and a paid internship in August to put in practice the skills learned during the Summer Academy. We anticipate that other members of the Brookline design community will participate in this program in the future.

To apply, fill out the Google Form located at [studiomla.com](http://studiomla.com).

Brookline High School will review each application to determine eligibility. studioMLA Architects will then review eligible applicants and set up a time to meet the candidate (in-person or virtually). If awarded the scholarship by studioMLA Architects, you will be recommended to apply to the Boston Architectural College Summer Academy Program or to the UMass Amherst Summer Design Academy. If you have any questions about the application please email

[admin@studiomla.com](mailto:admin@studiomla.com).

### **Newton Community Farm:**

<https://newtoncommunityfarm.org/about/staff/job-internship-opportunities/>

### **High School Navigator Young Scholars Program**

The HS Navigator Young Scholars Program strives to engage academically talented students with a strong desire to pursue careers in Computer Science, Medicine, Business or related areas. The program incorporates a lecture series, research exposure experiences, and networking opportunities. Participants will work on live projects on a variety of latest Information Technology field areas. It is a remote 5-Weekend online program where every weekend will consist of 2-4 hrs webinar.

Learn more and apply here: [https://hsnavigator.org/docs/HSNavigator\\_YSP.pdf](https://hsnavigator.org/docs/HSNavigator_YSP.pdf)

### **The Food Project: Seed Crew:**

84 high school students between the ages of 14 and 17 across racial, socio-economic, gender identity, and geographic differences to work on our urban and suburban farms in Boston, Lincoln, Lynn, and Wenham, MA. During this six-week program, youth work with staff to grow vegetables and distribute thousands of pounds of produce, while developing leadership, teamwork, workplace, and civic participation skills. After working on our farms each morning, Seed Crew spends most afternoons in workshops learning about sustainable agriculture, food access, social justice, and more. Seed Crew members will work approximately 32 hours per week, and will be paid \$15 per hour.

The link to the application is: <https://thefoodproject.org/seedcrew/>

**InvestIN:** InvestIN gives high school students aged 15-18 an immersive experience of their dream career in fields such as Investment Banking. Medicine. Engineering. Psychology. Filmmaking. Computer Science. Law. International Politics. Architecture and Entrepreneurship: To learn more and sign up for a summer internship visit: <https://investin.org/>

**GROW Internship (Greater Boston Research Opportunities for Young Women):** GROW is a six-week paid research internship for young women who are seriously interested in STEM careers. Participants can earn a stipend of up to \$1500 for completion of all program requirements. Accepted students will be placed in a biology, chemistry, physics, neuroscience or engineering lab where they will participate in cutting edge research in a collaborative group session. Participants will be part of a cohort that meets several times a week with a Program Manager who will coach them on how to reach their research goals and help prepare them to present their research at a summer symposium. Participants will also hear from guest speakers and learn about careers in STEM fields. Please note: Accepted Students must be able to attend all program dates. For more information and to apply, go to: [www.bu.edu/lernet/grow](http://www.bu.edu/lernet/grow).

More Information COMING SOON!

### **Summer Youth Internship: Museum of Science**

Internship Opportunities: Over summer, the Museum of Science offers paid internship opportunities for teens. Internships are available in education spaces and behind the scene roles where you will learn how the museum operates and gain valuable skills through your work and professional development workshops.

Eligibility: Applicants must be between the ages of 14-19 and currently enrolled in a High School or equivalent program.

Program Information: <https://www.mos.org/internships>

- Applications :
  - Summer high school internships are posted on the internship application site in mid-February.
- Length :
  - Summer Youth Internships take place over a 7-week program between July-August.
  - Interns work three (3) days a week during the program (typically 21 paid working hours).
    - Candidates are only allowed to miss three (3) consecutive workdays during the program.

- Benefits :
  - Weekly professional development workshops include financial literacy, field trips to other cultural institutions and local colleges, resume and cover letter writing, and more!
  - Free admission and access to the Museum of Science's Exhibit halls and venues.
  - Discounts in our Museum store and café.
  - Reciprocity to other cultural institutions
  - Commuter-friendly location (our E-line stop is just across the street!)

# Summer Programs

## **STEM Research Program:**

Applications for the 2024 Summer Cohort of the STEM Research Program are open!

Led by MIT researchers and alumni, the STEM Research Program introduces ambitious students like you to the cutting edge of your scientific field of interest. You'll work 1-on-1 with a PhD mentor and create an independent research project.

Explore cool topics like astrophysics, quantum mechanics, neuroscience, artificial intelligence, robotic control, game theory, genetic engineering, and many more!

### Timeline

Week 1: Introduction to your mentor and align on a topic

Week 2-4: Explore the topic and identify the research question

Week 5-9: Compose research paper with 1-1 support from research mentor

Week 10-12: Complete final edits and submit the paper for final evaluation

Complete this [application](#) to be considered for participation and receive more information. We look forward to working on interesting science with you!

## **BU FIRE (First Inspiration in Research in Engineering) Program:**

Session 1 July 22 -26 2004

Using interactive and experiential learning methodology, FIRE will educate and inspire the next generation of innovators and problem-solvers.

Participants will immerse themselves in the multifaceted world of engineering. Attendees will benefit from a curriculum that seamlessly integrates theoretical knowledge with practical application, thereby equipping young minds with the skills and insights necessary to navigate and contribute to the field of engineering effectively.

### **Climate Justice Camp:**

The link to register is [here](#) and an option to request the free or reduced rates is available on our [scholarship application form here](#).

Inquiries welcome to [info@pilgrimlodge.org](mailto:info@pilgrimlodge.org) or 207-724-3200.

### **Cooper Union:**

Spend your summer break with The Cooper Union!

This summer we are offering a combination of in-person and online pre-college courses. Learn more and register using the links below.

[Introduction to Architecture](#)

[Summer Art Intensive](#)

[Summer Writing Program](#)

### **Ladder Internships:**

[Ladder Internships](#) is a selective start-up internship program for high school students, founded and run by Harvard graduate students. In the program, students work with supervisors from top start-ups to work on real-world projects in a real start-up environment. Our companies and supervisors come from Harvard iLabs, Stanford, Google, Microsoft, and McKinsey & Company.

No prior working experience is required. The application deadline for the Summer cohort is May 12, here is the [brochure](#) and the [application link](#).

**StatStart Program:**

A one month summer intensive program intended for high school students from underrepresented backgrounds interested in data science and computing.

<https://www.hsph.harvard.edu/biostatistics/statstart-a-program-for-high-school-students/>

**Biology Summer Camps:**

## 2024 COMPUTATIONAL BIOLOGY RESEARCH CAMPS FOR HIGH SCHOOL STUDENTS

Students will learn to do computational biology research using clinical data to identify genes related to certain diseases!

- **Location:** Online/In-person
- **Audience:** High school students (including incoming freshmen)
- **Camps Offered:** Computational Biology (CB), Biotechnology Sequencing (BTS), R Programming & Machine Learning (R Camp)

Session	Dates	Location	Time
CB #1	June 17 - June 21	University of Michigan	9 am - 4 pm (ET)
CB #1 Virtual	June 17 - June 21	Online Only	9 am - 4 pm (CT)
CB #2	June 24 - June 28	University of Michigan	9 am - 4 pm (ET)
CB #2 Virtual	June 24 - June 28	Online Only	9 am - 4 pm (CT)
R Camp	July 8 - July 12	Online Only	9 am - 4 pm (CT)
CB #3	July 22 - July 26	Scripps Research Institute	9 am - 4 pm (PT)
BTS	July 29 - Aug 2	Scripps Research Institute*	9 am - 4 pm (PT)

\*Virtual option also available

We also offer the **Sequencing Your Genome Camp**, a 3-week program that includes both CB and BTS weekly camps, and an additional week (Aug 5 - Aug 9) for students to analyze their own genomes!

**Visit miRcore website for more information and registration!**

<https://www.mircore.org/2024-summer-camp/>

### Notre Dame Online Summer Programs:

[https://precollegeonline.nd.edu/?utm\\_source=email&utm\\_medium=internal&utm\\_campaign=nd\\_counselors\\_programannouncement&lid=58cj7rlkoni](https://precollegeonline.nd.edu/?utm_source=email&utm_medium=internal&utm_campaign=nd_counselors_programannouncement&lid=58cj7rlkoni)

### Loop Abroad:

[Loop Abroad](#) has travel study and online programs for high school students (ages 14-18) interested in veterinary medicine and wildlife conservation.

Students in our programs gain research and veterinary experience and can opt to receive college credit from our partner university. We have high school programs in [Thailand](#) (elephant conservation, small animal veterinary), [Australia](#) (zoo medicine), and [Costa Rica](#) (sea turtle

research). For students who are unable to travel, [we offer virtual courses with optional college credit](#). Students who apply for a virtual program before May 1, can use the code SUMMER24 to get half off tuition.

### **Dean College Summer Programs:**

#### **Intended audience:**

High school students with a passion for the arts, forensics or sports broadcasting who are looking to make the most out of their summer and get a jump start on their career!

#### **Program topics:**

Our [Summer Arts Institute](#) (featuring either a [Dance](#) OR [Musical Theatre](#) Intensive) or our [Pre-College Programs](#) (choose from either [Sports Broadcasting](#) OR [Forensics](#))

#### **Session dates:**

[Summer Arts Institute](#) will take place the week of July 28 - August 4, 2024

[Pre-College Programs](#) students may choose between two sessions:

Session 1 will be held July 21-26 & Session 2 July 28 - August 2, 2024

#### **Location:**

All programs will take place on our idyllic campus located in Franklin, Massachusetts. Students have the option to stay overnight or commute.

#### **How to register:**

Registration is now open for both the [Summer Arts Institute](#) and [Pre-College Programs](#). Space is limited, so we encourage anyone interested to apply soon!

For more information on the Forensics or Sports Broadcasting Pre-College Programs, students may attend a free virtual info session, scheduled for Tuesday, April 10 at 5:30 PM and Wednesday, May 1 at 6:00 PM. Register [here](#) for an Info Session.

### **Rensselaer Polytechnic Institute: Architecture Career Discovery Programs:**

This two-week class is designed to expose you to a high-quality undergraduate architecture program. The core of this course is studio work.

High school students entering 10th, 11th, and 12th grade in the fall who are interested in future careers in architecture or design-related fields and curious about the world are encouraged to apply. The first week of the course will focus on building models and making drawings by hand. The second week will focus on using the computer as a design tool. Students will learn 3D modeling in Rhinoceros, 2D drawing, and image editing in Adobe Creative Suite.

This exciting, immersive workshop will open your eyes to architecture as a future career and provide you with an impressive portfolio piece, essential to be accepted into a premier program - like Rensselaer.

**In-person session: July 8-19, 2024 (9 a.m. - 4 p.m. EDT)**

[Register Now](#)

**Online session: July 22-August 2, 2024 (11 a.m. - 6 p.m. EDT)**

[Register Now](#)

**Program cost: \$1850**

**Registration will be on a first-come, first-served basis.**

### **Summer Public History Institute at Suffolk:**

This summer Suffolk is running a program to get students to experience history and see what it is like living in a dorm in the city for two weeks in July. The program is for incoming 10th-12th grade students. I would love it if you could possibly send this to students and parents to see if this is something they are interested in. Here is the link to all the information on the program and how to sign up

<https://www.suffolk.edu/cas/degrees-programs/history/summer-public-history-institute> . The cost of the program covers housing, food, transportation, admission to museums/historical sights, and programming events. It is an amazing opportunity because students will get to meet with historians from many museums/historical sights in and around Boston in a way that is not available to the public.

**To learn more and apply visit:**

[\*\*https://www.suffolk.edu/cas/degrees-programs/history/summer-public-history-institute\*\*](https://www.suffolk.edu/cas/degrees-programs/history/summer-public-history-institute)

### **WPS Summer Leadership Institute:**

The 3-week WPS Summer Leadership Institute is crafted to empower students by developing their leadership skills, exposing them to innovative city spaces, and inspiring them to shape their own futures. Throughout the program, participants will:

- Immerse themselves in hands-on experiences.
- Visit first-rate institutions, such as an MIT maker space.
- Engage with experts in engineering, biotech, social innovation, and more.
- Develop skills in entrepreneurship, digital storytelling, networking and influencing, which they can apply in internships and community impact projects.

The Summer Leadership Institute is a competitive admissions program and requires students to submit an application at [wpsinstitute.org/sli](https://wpsinstitute.org/sli).

**Heavy Metal Summer Experience (HMSE):**

Always with a focus on safety, students gain exposure to all aspects of construction from BIM through fabrication and installation. Taught by working craft professionals who are ready to share their career paths and advice.

To learn more and apply visit:

<https://www.hmse.org/locations/locations/boston.html?fbclid=IwAR3Tg59iYL0bK9gDELL-bREqHy751-400KLDbhF7zMeonWoxQtOTUwAb-Jo#form-start>

**Beaver Works Summer Institute at MIT:**

Do you know a bright, curious student who sees possibilities they can create with science, technology, engineering, and math? That student may be a perfect fit for the Beaver Works Summer Institute, a four-week virtual program that challenges high school students to tackle high-tech projects.

Learn more and apply here: <https://beaverworks.ll.mit.edu/CMS/bw/bwsi>

## **Elon's Summer Journalism Camp:**

<https://www.elon.edu/u/academics/communications/about-the-school/scripps-howard-emerging-journalists-program-at-elon/immersion/>

## **Broad Institute Scholars Program:**

The Broad Summer Scholars Program (BSSP) invites highly motivated high school students with a strong interest in science to spend six weeks at the Broad Institute. We match students with Broad scientists to conduct original, cutting-edge research projects in areas such as: cancer biology, psychiatric disease, chemical biology, computational biology, infectious disease, and more. In addition to original research, students will get to explore scientific careers; attend interesting scientific talks; present their research to the Broad community in a scientific poster session; attend a college fair; participate in fun social events; and meet other students who share similar interests.

**Application deadline Monday January 22nd**

**To apply visit:**

<https://www.broadinstitute.org/partnerships/education/k-12-outreach/broad-summer-scholars-program>

**Columbia University's Pre- College Program:**

Columbia University's [Pre-College Programs](#) emphasize rigorous instruction and critical thinking within a cohort of students from across the globe. With courses in over a dozen subject areas, ranging from programming and mathematics to psychology and art, students are challenged to think independently and creatively.

Outside of class, students can experience our enriching co-curricular activities, from attending college-prep workshops and lectures to preparing for the academic rigors of university life with sessions like Finding the Right College for You and Insider Tips for the Common App.

## AMIGOS Summer:

**Join us in Costa Rica,  
Panama, or Paraguay this summer!**

Since 1965, AMIGOS has provided authentic service and cultural immersion experiences across Latin America. Join AMIGOS this summer and volunteer with local organizations, practice your Spanish, live with a host family, and experience life, adventures, and connection in a new country!

### **Earn Service Hours and College Credit**

Get 12 service hours per week volunteering with organizations like the National Park Service, a women-led agricultural cooperative, or a sea turtle protection agency. Register to receive up to 3 college credits!

### **Live Like a Local**

Practice your Spanish, live with a host family, and become part of the community! Explore areas most tourists don't get to see.

### **Choose the Project for You**

Whether you're looking for a nine-week homestay or a two-week group trip, we have a variety of two, three, four, six, and nine-week projects to fit your schedule and interests.

Questions?  
Email [outreach@amigosinternational.org](mailto:outreach@amigosinternational.org)

## Summer 2024 Programs:

**2 weeks:**

Group Travel

**2-3 weeks:**

Group Travel with Homestay

**4-9 weeks:**

Community Immersion

Attend a virtual information session or chat with a program counselor!

[amigosinternational.org](http://amigosinternational.org)

## **Boston Leadership Institute:**

You can read further details regarding our eligibility requirements here:

<https://www.bostonleadershipinstitute.com/outreach/>

Scholarships:

In order to be considered for a full scholarship, the student must be a rising senior.

Underclassmen and middle school students have the opportunity to be considered for partial scholarships. If the student wants to be considered for a three-week program, they must first apply and be accepted.

Any scholarship recipients must live within driving distance or have a place to stay within driving distance. All parents must promise to drive their students to and from programs every day or have a reliable form of transportation. Our programs are held at three locations: Olin College in Needham, MA, Gann/Bentley in Waltham, MA, and Simmons University in the Longwood Medical Area.

**Students can apply for a scholarship [here](#) and the deadline is May 15th.**

### **BioStars:**

The BioSTAR summer program is designed to introduce talented and self-motivated high school students to Bioengineering education at Harvard University. Students will learn bioengineering principles and techniques in a state-of-the-art research lab at the engineering campus in Allston. In addition to designing and performing research experiments, students will engage with Harvard faculty and researchers to gain an in-depth understanding of how bioengineering has an impact on human health.

**To learn more and apply: Applications are now open!**

<https://seas.harvard.edu/active-learning-labs/summer-programs-wintersession/summer-programs/biostar>

### **Coding for Medicine:**

This program presents biomedical sciences and biology as a large-scale data-driven science where a student learns to combine skills in coding, algorithms, math and stats to understand the genome and gain biological insight. Our program offers our signature bioinformatics courses at many levels of computational skills proficiency and are modular. Our approach at all levels is problem-based learning.

For more information visit: <https://hs.coding4medicine.com/online/>

### **Columbia Climate School:**

Columbia's Pre-College Programs: The Columbia Climate School in the Green Mountains, a 2-week campus-based program for high school students in Castleton, Vermont to mobilize action, drive impact, and effect change in response to our warming planet. Engage with experts from Columbia Climate School and learn about cutting-edge innovations in action. Meet, collaborate, and build partnerships with like-minded students and tap into collective strengths for action.

<https://www.climate.columbia.edu/green-mountains>

### **The Neubauer Phoenix STEM Summer Program:**

Offers the opportunity for a diverse cohort of outstanding high school students with an interest in STEM-related areas to be exposed to UChicago's distinctive approach and abundant research and academic opportunities in STEM fields.

Applicants should be at least 15 years of age and be a current high school junior enrolled in a high school in the United States.

**Applications will be accepted online through March 5th, 2024.** All application decisions for this program will be released at the same time in mid-April. There is no application fee to apply. Applicants must complete the Summer Session Application, and all the related requirements which can be reviewed in the [How To Apply](#) section.

Application materials include:

- Online application
- Transcript (official or unofficial)
- Supplement & essays
- At least one teacher recommendation
- At least one parent confirmation email received

Applicants will be asked to respond to the following essay questions in the application:

- Why did you choose the particular program/courses for which you have applied? How are they related to your current interests and future plans? Please be as specific as possible, and make sure your response covers each of the courses you elected. (Limit: 500 words)
- “Since its founding, the University has been committed to the idea that a culture of rigorous inquiry requires an environment where diverse perspectives, experiences, groups of individuals, and ideas inform and stimulate intellectual exchange, challenge, and engagement.” -[UChicago Office of the Provost](#). How does your perspective, experience or background contribute to this culture of inquiry in this program? What do you hope to gain or learn by engaging with peers from all over the U.S. or from different parts of the world? (Limit: 300 words)

**This is FREE!**

### **Young Scholars Program:**

The applications for the Center for STEM Education’s Young Scholars’ Program (YSP) have now opened. YSP offers future scientists and engineers a unique opportunity for a hands-on research experience while still in high school. This free program is open to Massachusetts residents (within commuter distance) who [will] have completed their junior year of high school (i.e. current juniors as of Jan 2024) and is a 6-week summer research opportunity running M-Th, 8:30-4:30, June 24 - August 1. Applications close March 15<sup>th</sup>.

To learn more about the program and to apply, please visit our website here:

<https://stem.northeastern.edu/summer/ysp/>

### **Curiosity Camp at Simon’s Rock:**

Curiosity Camp at Simon’s Rock is a two-week exploration of college living and learning designed for students currently completing grades 9, 10, and 11.

Curiosity Camp at Simon’s Rock is open to inquisitive and motivated students interested in exploring their academic and creative interests in a college environment while they are currently completing grades 9, 10, or 11. Students will participate daily in Simon’s Rock’s signature Writing and Thinking Workshop along with a Seminar, and arts and science courses to experience diverse and exciting academic offerings. The program’s cohort of 30 students allows for small class sizes where students and professors can collaborate and engage in dynamic discourse in this academic summer camp.

Students will have the opportunity to take advantage of this summer camp in the Berkshires on Simon’s Rock’s 275-acre wooded campus of natural beauty and trails, state of the art Kilpatrick Athletic Center, nearby downtown Great Barrington (rated the “No. 1 Small Town in America” by Smithsonian Magazine), and planned excursions to nearby cultural attractions in the Berkshires.

**More information about Curiosity Camp can be found [here](#).**

For questions, email [curiositycamp@simons-rock.edu](mailto:curiositycamp@simons-rock.edu)

### **Summer Experiences in Law & Politics For Ages 12-18:**

Do you dream of standing up in the Supreme Court and arguing a human rights case? Or negotiating an international treaty with UN representatives? Next summer you can do all this and more on one of our flagship summer experiences in London:

- Argue a human rights case in the Supreme Court
- Network with MPs in Westminster
- Work with corporate lawyers in a City skyscraper
- Participate in a 'Model UN' with UN and Foreign Office staff
- Cross-examine witnesses in a murder trial
- Negotiate climate change policies in a simulated COP26

Interested? Contact [info@investin.org](mailto:info@investin.org).

### **The University of Pennsylvania – Leadership in the Business World:**

Supported by the Wharton School of the University of Pennsylvania, Leadership in the Business World (LBW) is an intensive summer program for a select group of rising high school juniors and seniors who want an introduction to a top-notch undergraduate business education. The program will be held in Philadelphia, Pennsylvania on campus.

<https://globalyouth.wharton.upenn.edu/programs-courses/leadership-in-the-business-world/>

Application deadline: Priority deadline-January 31st, Final deadline- April 3rd

For more information, please contact [wharton@summerdiscovery.com](mailto:wharton@summerdiscovery.com) or call +1.516.414.5555.

### **Economics for Leaders:**

Economics for Leaders (EFL) is a selective summer program that teaches student leaders how to integrate economics into the process of decision-making in an interactive virtual learning environment. To register: <https://fte.org/students/student-programs/>

### **Girls who code:**

The signature Girls Who Code Summer Immersion Program will be running this summer. The 2-week opportunity is available to rising sophomore, junior, and senior girls—trans and cis—and non-binary students. No prior computer science experience is required:

<https://girlswhocode.com/programs/summer-immersion-program>

### **Ross Mathematics Program:**

The Ross Program is an intensive summer experience designed to encourage motivated pre-college students to explore mathematics. During those weeks, students are immersed in a world of mathematical discovery.

To register: <https://rossprogram.org/>

### **Simons Summer Research Program:**

Gives academically talented, motivated high school students the opportunity to engage in hands-on research in science, math or engineering at Stony Brook University. Simons Fellows work with distinguished faculty mentors, learn laboratory techniques and tools, become part of active research teams, and experience life at a research university:

<https://www.stonybrook.edu/commcms/simons/index.php>

**UMass Amherst:**

University without walls- pre-college opportunities during Summer 2024:

Our online pre-college programs are designed to give you a preview of the UMass student experience, including college-level academics and being part of a learning community of high school students from all across the U.S. and the world:

<https://www.umass.edu/uww/programs/pre-college>

**LaunchX:**

Brings together top aspiring high school entrepreneurs from around the world each summer, supporting you through the process of launching an actual startup.

You join a highly-curated group of promising young entrepreneurs from around the globe, learn from industry experts, and leverage our leading course materials and support team to work with your peer co-founders to build real products and solve business challenges in viable ways.

LaunchX isn't a business plan competition - students start real companies. These startups are driven by using the design thinking process to discover innovative opportunities, backed by extensive market research, multiple iterations of prototypes and user testing, and gaining traction through iterations and customer development.

<https://www.launchx.com/programs>

**The European Center at Tufts University**

The Tufts Summit program is designed to offer a select group of rising high school juniors and seniors an opportunity to take a college-level course on International Relations while being immersed in French language and culture. Students must have completed a minimum of two years of formal French instruction. Classes are complemented by excursions to Geneva and Lyon, and students also enjoy a host of extracurricular activities including hiking and swimming. Students live with carefully selected host families, most often with another student.

The Tufts Summit Program is open to applications from all students who meet the following criteria:

- Students must be rising high school juniors or seniors (having completed a minimum of two years of high school instruction)
- Students must have completed a minimum of two years of formal French instruction

<https://europeancenter.tufts.edu/tufts-summit/>

**Johns Hopkins Engineering Innovation: Pre-college programs in math & science**

Johns Hopkins Engineering Innovation offers a collection of specialized pre-college programs for high-achieving math and science students. This summer, we're back with our popular in-person summer program, Explore Engineering Innovation (In-Person), at campuses in multiple locations. And for those who prefer an online option, Explore Engineering Innovation (Online) will be offered as a synchronous class, or check out our thought-provoking Biomedical Engineering Innovation course.

The Explore Engineering Innovation course features exciting learning opportunities, including building a spaghetti bridge, programming a microcontroller, pitching a new and novel product or service, and plenty more.

Our Biomedical Engineering Innovation program gives students the opportunity to model biological systems and design experiments to test their models. Using engineering principles to solve problems that are biological, physiological, and/or medical. Designed by trusted scientists and engineers from Johns Hopkins University, you can be sure the academic rigor and ingenuity runs deep throughout our courses—all in a supportive and confidence-building environment. And you can earn college credit from Johns Hopkins University\*!  
<https://ei.jhu.edu/>

**Launch & Frontiers Summer Programs at Worcester Polytechnic Institute:**

WPI summer programs for high school students.

Register today:

[https://wpi.my.site.com/frontiers/TX\\_SiteLogin\\_F?startURL=%2Ffrontiers%2FTargetX\\_BasePortal](https://wpi.my.site.com/frontiers/TX_SiteLogin_F?startURL=%2Ffrontiers%2FTargetX_BasePortal)

**Boston University's COM, Summer Journalism Academy:**

For 13 years, our program has taught high school students core skills in news reporting, interviewing, and writing, while focusing on hands-on experience in and around Boston and their home communities. Taught by award-winning working journalists such as Pulitzer Prize winner Lara Salahi, students learn how to follow facts and get to the heart of stories affecting communities.

Students are challenged to step outside their comfort zone and experience life as a working journalist. In the past, our students spoke with policymakers, reported from a massive immigration march, and highlighted issues affecting teens during the pandemic. They learned how to interview strangers, ask probing questions, and assemble information in a concise story with a deadline.

Students learn practical skills over each two-week session, but they also get a taste of how a newsroom operates.

For students living on-campus, they have the opportunity to:

- Meet with Boston University's representative to discuss the college admissions process
- Explore what it's like living in a residence hall and studying in a university environment
- Experience Boston museums, historical sites, and neighborhoods during free time

To learn more and apply, visit:

[https://combeyond.bu.edu/offering/summer-journalism-academy-bu/?j=206812&sfmc\\_sub=6073658&l=205\\_HTML&u=6330692&mid=514005790&jb=1005](https://combeyond.bu.edu/offering/summer-journalism-academy-bu/?j=206812&sfmc_sub=6073658&l=205_HTML&u=6330692&mid=514005790&jb=1005)

**Stanford Summer Institute:**

# Stanford | Summer Humanities Institute

## Become a Humanities Scholar This Summer

### 3 Weeks • Grades 10 - 11 Residential Program

**Stanford Summer Humanities Institute** allows rising high school juniors and seniors to dive deep into the humanities and explore rich fields of inquiry that are rarely taught at the high school level.

**Program Dates:**

Session One: June 23 – July 12, 2024  
Session Two: July 14 – August 2, 2024

**Tuition:** \$8,250

**Financial Aid:** Both full and partial scholarships are available.

#### Humanities Enrichment

Tap into Stanford University's excellence in the humanities and social sciences—exploring texts and ideas at a profound level, writing college-level papers, and communicating complex arguments in their academic writing and discussion sections.

#### Profound Conversations

Throughout the session, participants have the chance to discuss powerful ideas that they are exposed to in lectures, readings, and discussion sections.

#### Passionate Peers

Live and study alongside fellow participants from around the world who are similarly interested in the humanities. Learn to understand the past, question the present, and imagine the future with a community of curious, independent thinkers.

Application Deadline: February 1, 2024

Learn More

**MEDScience Summer Program at Harvard Medical School:** Are you a high school student curious about medicine or medical research? Do you wonder what it's like to be a doctor, nurse, paramedic, or research scientist? If you wonder how to start down that path, there is a place for you here at Harvard medical school medscience!

HMS MEDscience Summer Programs offer innovative, immersive medical science programs for high school students curious and passionate about science, healthcare, and related STEM fields.

**MEDscience** uses realistic medical emergencies to bring science to life! Learn by practice for a transformative experience.

**Learn at HMS!** Experience hands-on learning to deepen understanding by connecting lessons to real-life experiences. Learn from Harvard Medical School faculty and staff and other expert healthcare professionals

**Be Inspired!** Meet nurses, physicians, researchers, and other healthcare professionals and explore various medical career pathways during MEDchats and be inspired to find your passion!

**Build Confidence!** Learn to think outside of the box, with no limits, to think like scientists. Become confident in your abilities to problem solve and share ideas. Gain critical thinking, problem-solving and teamwork skills and be prepared for college, work, and life!

No textbooks, no homework!

<https://www.hmsmedscience.org/medscience-at-hms-summer>

### **Summer STEM, United States Naval Academy**

For over 30 years, before STEM was being promoted, the Society of American Military Engineers (SAME) has been advancing events and activities and offering scholarships designed to excite students to become engineers.

SAME, in collaboration with the military services, offers a series of week long, STEM Engineering & Construction Camps designed for High School students who excel in math, science and technology courses and are interested in pursuing engineering, architecture, or related fields in college. Each of our camps has their unique curriculum, with the common thread being: challenging environment, hands-on activities, mentors who are young engineers, long term resources for alumni.

What we're looking for:

- Students entering 9th - 11th grade
- Evidence of strong accomplishments inside and outside the classroom
- Strong academic performance
- Strong PSAT, SAT or ACT scores (where applicable)
- A strong interest in Science, Technology, Engineering, and Math

For more information and to register visit: <https://www.same.org/camps/>

### **School the World- Student Travel Programs:**

School the World is an international education non-profit organization committed to solving extreme poverty through the power of education. In the past twelve years, we have built 109 schools throughout Guatemala, Honduras, and Panama by partnering with the local government and rural community leaders. Aside from building schools, we train teachers, empower parents through bi-monthly meetings and sustainably stock classroom libraries through a matching program. In 2016, we began introducing an initiative around PLAY to our strategy. Play is proven to increase students' mental and physical health, learning skills, gender equality and life skills. We committed to building play spaces to facilitate free play, organized recess games, and eventually an inter-school soccer league and have since built 56 playgrounds at our existing schools.

<https://schooltheworld.org/travel-with-us/>
