Seano3	(D)	YEA
Slim_Seybold	(D)	YEA

YEAS - 3 NAYS - 4

Lieutenant Governor's Statement

I stand today to vote in favor of B.029. Transparency should be a core value of our government, and being able to easily learn about the Government of Superior and who specifically represents you is key to that value. All of the included information in this legislation is already public, and consolidating it for easy access is a no-brainer. Additionally, this legislation also simplifies taxes, something that has been championed as a priority for both parties in the past. However, all Republicans today have decided to vote against this legislation. Without any debate or discussion from them, one has to wonder what they have against transparency and simplifying taxes.

I also stand today to vote against B.051. As a supporter of lowering the cost of college, I see this bill fails to provide the comprehensive picture necessary for effective legislation. I hope it will be reconsidered with amendments at a later time.
