

How to Clear Cache and Cookies in the Chrome Browser

Description

When you use a browser, like Chrome, it saves some information from websites in its cache and cookies. Clearing them will fix certain problems, like loading or formatting issues on sites.

In Chrome

1. Click on the three vertical dots located at the top right of the browser window under the X, click on and then click on **Settings**.

2. Begin typing "Cache" in the search field; click on the arrow to the right of **Delete browsing data**.

3. In the next window click on the **Advanced** tab, and for “Time range” please choose “**All time**” in the drop-down menu. Then place a checkmark in all the boxes you see in the image below, then click on **Delete data**.

Delete browsing data

Basic **Advanced**

Time range **All time**

- ☒ Browsing history
127 items
- ☒ Download history
1 item
- ☒ Cookies and other site data
From 15 sites (you'll stay signed in to your Google Account)
- ☒ Cached images and files
424 MB
- ☐ Passwords and other sign-in data
10 passwords (for kleinisd.net, classlink.com, and 8 more, synced)
