

Advanced Ultrasound Rotation Checklist

Please complete this form and email to tfong3@ihmi.edu at the end of your rotation.

Resident Name: _____ Dates of Rotation: _____

I have performed a total of _____ (goal: 60 independent, plus any additional faculty supervised) technically adequate, correctly interpreted ultrasound studies over the 2-week block. Each study was either supervised by a credentialed faculty or has a confirmatory radiologic study, and has a completed report in Qpath.

I have read the following chapters in Soni and Arntfield's *Point-of-Care Ultrasound, 2nd Ed.* (or alternatively the equivalent chapters in *Introduction to Bedside Ultrasound iBook*):

___ Ch 22: Hypotension and Shock

___ Ch 39: Ocular

___ Ch 29: First Trimester Pregnancy

___ Ch 42: Peripheral Nerve Blocks

___ Ch 30: Second/Third Trimester Pregnancy

___ Ch 45: Skin and Soft Tissues

___ Ch 34: Lower Extremity DVT

___ Ch 46: Joints

I have completed the following SAEM-AEUS online POCUS quizzes with a score of >80% (please list scores below). Submit score reports together with this checklist at rotation end.

___ DVT

___ RUSH

___ Intro to MSK (2024)

___ SBO

___ Ocular (2024)

___ Transabdominal US

___ Procedural US

___ Transvaginal US

___ Intro to Nerve Blocks (2024)

My 2 multiple-choice questions for the residency Qbank are below:

My progress to completing ACEP requirements for POCUS credentialing and residency graduation is below:

-Echo: ___ (need 25-50 credited scans)

-FAST: ___ (need 25-50 credited scans)

-US guided IV: ___ (need 5 or more credited scans)

-Three additional diagnostic applications of your choice (need 25-50 of each):

(1):

(2):

(3):

Ongoing POCUS scanning and Qpath submissions: I am aware that the residency requires that I perform and submit in Qpath a minimum of 25 scans per semester, to maintain and build my skillset during the PGY3 and PGY4 year.

Please provide any positive or constructive feedback about the rotation on the back of this form.
THANKS FOR YOUR HARD WORK!
