Remember to focus your attention on RELIABLE sources that are presenting information in an accurate, unbiased manner. By the end of your research, you should have at least 3 reliable sources to pull from. Don't forget to use your keywords to conduct your research and try to answer specific questions.

Keywords:

- Bioethics
- Ethical Violations
- Forgotten Histories
- Impacts/Changes
- Medical Research
- Research Subjects

Questions:

- What was the research being conducted?
- Who was conducting the research and why?
- Who were the subjects of the research?
- What were the ethical violations that doctors and researchers were accused (or found guilty) of committing?
- How did this study impact the field of medicine and medical research?
