

Prompt:1

Create a intimate, nostalgic picture with the visual character 1990s Indian studio photograph traditional color film image should have an authentic old-family-photo Maintain a slightly faded, appearance, subtle film grain, gentle color fading, mild analog imperfections, and natural photographic softness. The overall color palette should feature muted burgundy, deep maroon, beige, cream, and subdued golden tones. The man is seated prominently in the foreground, facing the camera in a relaxed, comfortable posture closely matching the hairstyle in the reference image. He is wearing the same dark casual button-up shirt with vertical and irregular muted stripes in burgundy, brown, beige, and dark blue-gray tones. The woman stands closely behind and slightly to the right of the seated man, She is wearing an elegant traditional deep maroon/burgundy saree with a rich golden-yellow or mustard-gold border 9:16 ratio

Prompt no: 2

preserve original hairstyle, preserve exact original beard style, preserve exact original moustache, preserve original sideburn style, modern fade haircut, skin fade, undercut, modern barber cut, sharp beard line-up, boxed beard, modern stubble, contemporary hairstyle, modern casual fashion, repeated shirt, repeated trousers, repeated hairstyle, repeated beard, repeated moustache, repeated sideburns, repeated accessories, repeated background, identical pose, default Ambassador car, smartphone, LED lighting, modern advertisements, modern vehicles, modern architecture, contemporary signage, plastic skin, excessive beauty retouching, CGI, cartoon, anime, distorted face, extra fingers, unrealistic body proportions. 80s image

Prompt no: 3

Create a *photorealistic 1980s retro picture* using the uploaded photo as the identity reference. Preserve her *face, facial features, skin tone, age, body proportions, and overall identity exactly*, so she is clearly recognizable as the same person.

Do not preserve the hairstyle from the uploaded photo. Completely restyle her hair into an authentic *1980s hairstyle* that naturally suits her individual face structure, face shape, forehead, jawline, hair length, hair density, and hair texture.

The hairstyle must look genuinely from the 1980s, not like a modern hairstyle with retro clothing.

Choose the hairstyle individually for each person. Do not use one fixed hairstyle for everyone. Depending on what suits her face best, dynamically select an era-appropriate hairstyle such as:

- voluminous natural curls
- feathered layered blowout
- soft 80s perm
- large bouncy waves
- teased crown with flowing hair
- side-swept voluminous hair
- high side ponytail
- retro half-up hairstyle
- crimped textured hair
- shoulder-length layered 80s cut
- fluffy rounded curls
- short voluminous retro cut
- loose curls with a scrunchie
- dramatic side-parted waves

Do not randomly force a hairstyle. First study her face structure and choose the 1980s hairstyle that makes her look most natural and flattering. Different uploaded faces should naturally produce different hairstyles.

Hair should have the *volume, texture, shape, layering, and styling characteristic of the 1980s*. Avoid modern straightened hair, curtain bangs, modern balayage, sleek contemporary blowouts, wolf cuts, modern beach waves, or current Instagram hairstyles.

Fashion

Transform her clothing into a bold, stylish *1980s western retro outfit*.

Do not use saree, kurti, salwar, lehenga, or traditional Indian clothing.

Keep the *main color family and overall color mood of the clothes in the uploaded image*, but reinterpret them into authentic 1980s western fashion.

Do not copy one fixed outfit for every person. Choose a different combination depending on her body type, pose, colors, and personality. Possible authentic 80s elements include:

- acid-wash high-waisted jeans
- stone-wash denim
- tapered mom jeans
- high-waisted pleated trousers
- paper-bag waist pants
- retro skirts
- oversized tucked-in sweatshirts
- oversized graphic tops
- puff-sleeve tops
- batwing or dolman-sleeve tops
- colorful retro blouses
- off-shoulder 80s tops
- vintage denim jackets
- cropped retro jackets
- colorful coordinated sets
- authentic 80s jumpsuits

The outfit must be *obviously 1980s at first glance*. Do not create a modern jeans-and-top outfit and simply call it retro.

Accessories

Choose accessories individually based on what suits the person and outfit. Vary them across generations. Possible accessories include:

- oversized hoop earrings
- colorful plastic bangles
- chunky retro earrings
- scrunchies
- colorful hair clips
- wide vintage belts
- classic wristwatches
- layered bracelets
- retro sunglasses
- small vintage handbags
- subtle 80s-style jewelry

Do not give every person the same hoops, bangles, belt, or scrunchie.

Kerala Background

Place her in an **authentic Kerala environment**, creating a visual contrast between her stylish western 1980s fashion and the nostalgic Kerala surroundings.

Analyze the uploaded photo's pose, framing, expression, clothes, and mood and automatically choose **one Kerala background that fits naturally**.

Possible environments include:

- old Kerala tiled-roof house veranda
- traditional Kerala house courtyard
- coconut-tree-lined village road
- old Kerala town street
- nostalgic chaaya kada exterior
- vintage Kerala bakery
- old hotel or restaurant entrance
- 1980s textile shop street

- old cinema theatre exterior
- street with hand-painted Malayalam movie posters
- vintage Kerala railway platform
- old Kerala bus stand
- backwater ferry jetty
- riverside walkway
- small Kerala market lane
- old college campus corridor
-

vintage school or college courtyard

- heritage Kerala bungalow - old tiled corridor with arches
- monsoon Kerala street
- small-town shopping street
- coastal Kerala road
- old terrace or balcony of a Kerala home

Do not automatically use the same background for everyone. Do not default to an Ambassador car, tea shop, railway station, or any other single location. The background must change according to the individual uploaded photo.

Also vary the *pose and interaction with the environment* naturally. She may stand casually, lean against a wall, sit on steps, walk through a street, stand beside a shop, rest against a veranda pillar, look back at the camera, or pose naturally according to the original photo.

Overall visual style

Make the entire image feel like an *actual photograph taken in Kerala during the 1980s*, not a modern photoshoot with a retro filter.

Use authentic 1980s photographic characteristics:

warm analog film tones, subtle Kodachrome-inspired colors, slight film grain, soft highlights, gentle contrast, natural skin texture, slightly imperfect vintage photography, nostalgic Kerala atmosphere, cinematic natural light, realistic fabric texture, and believable period details.

*Every uploaded above person must result in a noticeably different image, including a different hairstyle, outfit combination, accessories, pose, and Kerala environment, while maintaining the same overall concept of **1980s western retro girl fashion in Kerala*.

3:4 ratio • photorealistic • cinematic • authentic 1980s fashion photography • realistic human proportions • high detail

Negative prompt

> preserve current hairstyle, modern hairstyle, sleek modern hair, curtain bangs, modern balayage, wolf cut, modern beach waves, modern jeans styling, skinny jeans, basic contemporary top, modern crop top, minimalist modern outfit, saree, kurti, salwar, lehenga, repeated hairstyle, repeated costume, repeated accessories, repeated background, identical pose, default Ambassador car, smartphone, LED lighting, contemporary advertisements, modern cars, modern architecture, plastic skin, CGI, cartoon, anime, distorted face, extra fingers, unrealistic body proportions.

prompt no:4

Transform the uploaded photo(s) into a highly authentic 1980s-era photograph while preserving the exact identity and natural likeness of every person. Their faces must remain clearly recognizable, with the original facial structure, proportions, features, and skin tone unchanged.

Recreate the styling as a genuine 1980s look from head to toe. Give each individual a different period-accurate hairstyle, clothing style, accessories, and natural pose that suits their appearance and personality. For couples or groups, create coordinated 1980s outfits while keeping each person's styling distinct and natural.

Build a realistic South Indian 1980s visual environment with appropriate retro details such as classic cars, vintage scooters, old advertisements, cinema posters, cassette players, traditional furniture, and other believable elements from that era.

Use the visual character of authentic analog photography: warm golden illumination, nostalgic film tones, subtle film grain, slightly faded vintage colors, realistic shadows, natural skin texture, gentle photographic softness, and the look of a professionally captured 1980s magazine photograph.

The final result should feel like a real photograph taken during the 1980s, rather than a modern photograph with a simple vintage filter.

Ultra-realistic, highly detailed, photorealistic skin texture, natural facial expressions, cinematic composition, authentic retro styling, professional analog photography, realistic 1980s atmosphere.

IMAGE FORMAT: Vertical 9:16 aspect ratio.

IDENTITY LOCK:

Keep every person's face, facial identity, facial proportions, and recognizable likeness exactly consistent with the uploaded photo. Do not replace, reshape, beautify, or redesign the face. Only change the hairstyle, clothing, accessories, pose, surroundings, lighting, and photographic era.

Prompt no:5

Transform the uploaded photo(s) into an authentic 1980s version while keeping every person's face, identity, facial features, facial structure, proportions, expression, skin tone, and natural likeness clearly recognizable and unchanged.

FACE PRESERVATION — ABSOLUTE HIGHEST PRIORITY

The uploaded face is the ****primary identity reference and MUST remain 100% unchanged****. Preserve the exact original face from the uploaded photograph.

Do NOT redesign, regenerate, reinterpret, replace, beautify, reshape, retouch, age, de-age, stylize, or modify the face in ANY way.

Preserve the exact:

- * Facial identity and likeness
- * Facial structure and proportions
- * Eyes, eyebrows, nose, lips, mouth, teeth
- * Cheeks, chin, jawline, forehead, ears
- * Natural skin tone, pores, texture, marks, and imperfections
- * Original facial expression and natural appearance

The person must look exactly like the same real person in the uploaded photo. **Facial recognition and identity consistency are more important than the 1980s styling.**

The 1980s transformation MUST happen around the person through **clothing, hairstyle, accessories, background, environment, lighting, color grading, composition, and analog film characteristics — NOT through the face.**

The face must remain clean, sharp, natural, realistic, and photorealistic. Do not apply heavy grain, excessive blur, faded texture, dots, scratches, aging effects, or vintage distortion directly over facial features.

If any 1980s effect conflicts with preserving the original face, **ALWAYS prioritize the original face.**

1980s FASHION — SHUFFLE / RANDOM

Randomly shuffle authentic 1980s outfits between people. Do NOT dress everyone identically.

For BOTH men and women, MOSTLY prioritize:

- * Vintage denim jacket + bold printed wide-collar T-shirt/top

- * Denim jacket + colorful bold printed retro shirt/top + high-waisted trousers
- * Bold printed wide-collar shirt/T-shirt + high-waisted or pleated trousers
- * Denim jacket + printed top + vintage skirt
- * Wide-collar retro shirt + high-waisted trousers/skirt

Occasionally vary with checkered or striped shirts, solid wide-collar shirts, knitted polos, sleeveless sweater vests, safari shirts, vintage dresses, sarees, salwar kameez, and other authentic 1980s styles.

Shuffle colors, prints, jackets, trousers, skirts, accessories, and styling so every person looks unique. Match outfits to gender, age, appearance, personality, setting, and occasion.

For formal, wedding, or traditional settings, use appropriate polished 1980s or traditional clothing instead of forcing casual denim.

WOMEN'S 1980s HAIRSTYLES

Choose based on the ****original hair length and natural texture****:

- * Short: feathered layers, voluminous bob, curled/side-parted bob
- * Medium: feathered layers, blow-dried volume, soft waves, curled ends, half-up styles
- * Long: feathered layers, voluminous waves, soft curls, high/side ponytail, half-up styles
- * Very long/traditional: long braid, jasmine braid, soft waves, classic bun
- * Curly/wavy: preserve natural texture with authentic 80s volume and layered curls

Preserve original hair length, hairline, density, and texture. Do not radically change hair length or give everyone the same hairstyle.

1980s TAMIL BACKGROUND

Create an authentic ****1980s Tamil Nadu**** atmosphere with period-accurate streets, houses, shops, buses, classic cars, scooters, cinema posters, wall posters, signboards, cassette shops, advertisements, and other genuine 80s details.

All visible readable background text must be in ****authentic Tamil script (தமிழ்)**** appropriate to the 1980s. Use realistic Tamil names, words, poster lettering, shop signs, cinema-style typography, and period-appropriate advertisements.

Avoid English, Hindi, modern typography, or meaningless random text where readable text appears.

AUTHENTIC 1980s PHOTO LOOK

Make the final image look like a ****REAL professional 1980s 35mm film photograph****, not an illustration, painting, anime image, CGI, 3D render, digital artwork, or AI-painted image.

Use warm golden lighting, nostalgic analog film, slightly faded vintage colors, realistic film color response, natural shadows, authentic depth of field, subtle halation, soft highlight roll-off, realistic exposure, and genuine period photography characteristics.

Add subtle old printed-photograph texture:

- * Very fine tiny dots
- * Delicate dotted grain
- * Faint microscopic line patterns
- * Matte photographic-paper texture
- * Fine 35mm analog grain
- * Slight halation
- * Gentle softness
- * Mild overall optical blur
- * Natural analog imperfections

The dots, lines, grain, and texture must be ****VERY FINE, subtle, random, and realistic****, like an old printed photograph — never large, repetitive, sharp, or digitally obvious. Keep faces and important details clear.

REALISM

Preserve realistic human skin, natural pores, fine facial details, realistic hair strands, natural eyes, realistic teeth, authentic body proportions, realistic fabric textures, natural shadows, and photographic depth of field.

The vintage effect should strongly communicate the 1980s through ****fashion, hairstyles, Tamil surroundings, lighting, colors, film characteristics, and printed-photo texture****, while every person remains completely natural and photorealistic.

NEGATIVE REQUIREMENTS

Do NOT:

- * Alter identity or facial structure
- * Change or regenerate the face
- * Beautify, reshape, smooth, age, or de-age the face
- * Add artificial wrinkles or facial features
- * Apply vintage distortion directly to the face
- * Make skin plastic, waxy, or overly smooth
- * Make the image cartoonish, illustrated, painted, animated, anime, CGI, 3D, or AI-painted
- * Use modern fashion, skinny/low-rise trousers, crop tops, modern streetwear, or contemporary styling
- * Give everyone identical outfits or hairstyles
- * Use excessive grain, blur, dots, scratches, or artificial texture
- * Make the clothing look like a costume

****FINAL RESULT:**** A genuine, strongly recognizable ****1980s Tamil Nadu photograph**** with shuffled authentic 80s fashion, preferably denim jackets + bold printed wide-collar tops for both men and women, period hairstyles, Tamil background details, realistic 35mm analog film, and subtle old printed-photo texture — while ****EVERY ORIGINAL FACE** remains 100% unchanged, natural, sharp, and recognizable.**

****Priority:**** Original face & identity → photorealism → authentic 1980s styling → analog film/print texture.

****Vertical 9:16 portrait composition.****
