

Privacy Policy for Prompt Flow Browser Extension

Effective Date: 20.02.2025

Thank you for using Prompt Flow, a browser side panel extension designed to help you manage your AI prompts efficiently. We are committed to protecting your privacy. This Privacy Policy explains how we handle data within the Prompt Flow extension.

1. Data Collection and Storage

Prompt Flow is designed to operate with your privacy in mind. **We do not collect, transmit, or share any of your personal data.**

All data generated and used within Prompt Flow, including but not limited to:

- **Prompts:** The text prompts you create and manage.
- **Tags:** Labels you apply to organize your prompts.
- **Version History:** Previous versions of your prompts.
- **Usage Statistics:** Data related to your prompt usage within the extension (e.g., frequency of use, but not the content of your interactions with AI services).
- **Extension Settings:** Preferences you configure within Prompt Flow (e.g., theme, layout).

is stored locally on your computer using the browser's local storage API. This means:

- **Data Stays on Your Device:** Your prompt data never leaves your local machine unless you explicitly choose to export it.
- **No External Servers:** We do not use any external servers to store or process your data.
- **Control Over Your Data:** You have full control over the data stored by Prompt Flow on your device. You can clear your browsing data to remove data associated with the extension.

2. Permissions and Usage

Prompt Flow requests the following permissions to function correctly:

- **storage:** This permission is essential for storing and retrieving your prompts, tags, version history, and extension settings locally on your device. This allows you to save your work and access it later.
- **sidePanel:** This permission enables Prompt Flow to be displayed as a convenient side panel in your browser. This provides easy and persistent access to your prompts without interrupting your browsing workflow.
- **activeTab:** This permission is used **only when you explicitly initiate an action** to insert a prompt into a text field on the currently active tab. Prompt Flow temporarily accesses the active tab's context to facilitate this prompt insertion. We do not continuously monitor or collect data from your active tabs.

3. Data Security

As all data is stored locally within your browser, the security of your data is primarily dependent on the security measures of your own device and browser. We recommend keeping your browser and operating system up to date with the latest security patches.

4. No Data Sharing with Third Parties

Prompt Flow **does not share any user data with any third parties**. We do not engage in any data analytics, advertising, or tracking that involves transmitting your data externally.

5. Changes to this Privacy Policy

We may update this Privacy Policy from time to time. We will notify you of any significant changes by updating the policy within the Web Store listing or within the extension itself. Please review this policy periodically for any updates.

6. Contact Us

If you have any questions or concerns about this Privacy Policy or Prompt Flow's data handling practices, please contact us at contact@artistscompany.net

By using the Prompt Flow extension, you acknowledge that you have read, understood, and agree to this Privacy Policy.
