

## Elementary School (Grades K–5)

The elementary years are full of **confidence-building, skill mastery, and wonder**. Students begin to connect what they learn to the world around them.

### Your child will:

- **Physically:**
  - Strengthen handwriting, coordination, and physical endurance
  - Participate in physical education and structured play that fosters teamwork and self-regulation
- **Academically:**
  - Master foundational reading, writing, and math skills through individualized instruction and group work
  - Explore science, social studies, religion, and technology through inquiry-based learning
  - Use STEM tools and design thinking to solve real-world problems
- **Social-Emotionally:**
  - Grow in independence, responsibility, and resilience
  - Learn to navigate friendships, conflict resolution, and digital citizenship
  - Begin to see service and kindness as ways to live out their faith
