

# May 26, 2020 UPDATE

Dear MHS Community,

With the announcement of Governor Murphy's allowance for an in person graduation, starting July 6th, we are carefully watching and waiting for the restrictions and protocols that are scheduled for announcement on May 27th. We will use these restrictions and protocols, along with collaboration with our district and local health officials, as guidance for an in person graduation with the inclusion of our originally planned virtual graduation.

Montclair has historically graduated class sizes of over 500 students and this year will not be any different. We look to collaborate with the students and families, while following health and safety protocols, in providing the Class of 2020 with a graduation that they deserve. We look to provide and update once the state protocols and restrictions are delivered later this week. Thank you for your patience and understanding.
