Career Pathway Endorsements

Background

ISBE has opened IWAS access for filing the state required Career Pathway Endorsements.

Summary

Two districts waited to file until the new portal opened, and are now working on their submissions. ISBE expects all schools with Pathway endorsements in the old system to migrate that information into the new IWAS system this fall, no later than December 15th. ISBE indicated some districts have “conditional approval” that requires further attention. Do any of our districts have conditional approval?

SKILLS USA Apprenticeship

Background

Last spring representatives from SKILLS USA presented to the CERO council via zoom on their apprenticeship model. They had also presented to the Admin Council by zoom the prior month. Based on the Board’s interest in the program we requested schools to enter into a shared form information on businesses we could invite to a presentation by SKILLS USA on this program.

Summary

To date we have five businesses listed. Initially we discussed holding the meeting during the summer, but agreed to regroup in the fall once we could collect a large enough list of prospective businesses for a meeting.
