

Minute on the Ongoing Devastation in Palestine

Sierra-Cascades Yearly Meeting of Friends, February 2024

Quakers believe in the sacred worth of each person and testify against all wars, terrorism, imperialism, hostage taking, and unjust imprisonment. We recognize active peacemaking requires interrupting antisemitism and Islamophobia wherever we see it, and we pledge to show up in solidarity alongside our Jewish, Muslim, and Arab neighbors.

As people who live in the United States of America, we feel it is necessary to speak up and take action on this matter because our tax dollars continue to support this decades-long violence, settler and military occupation, and displacement, and the people we put in power with our votes are making these decisions on our behalf. In solidarity with ally groups such as [Jewish Voice for Peace](#) and [If Not Now](#), we say not in our name and never again.

When the International Court of Justice (ICJ) found it plausible in January that the Israeli government's acts could amount to genocide, we continued to grieve for those who had lost their lives, and we held out hope for the protection of citizens in Gaza enduring apocalyptic humanitarian conditions, destruction, mass killing, wounding, and irreparable trauma.¹

The ruling issued by the ICJ ordered six provisional measures including for the Israeli government to refrain from acts under the Genocide convention, prevent and punish the direct and public incitement to genocide, and take immediate and effective measures to ensure the provision of humanitarian assistance to civilians in Gaza. The Court also ordered the Israeli government to preserve evidence of genocide and to submit a report to the Court, within one month, of all measures taken in line with its order.

Since that ruling was issued, the Israeli government, with US military and financial support, has:

- continued killing hundreds of Palestinians each day and has injured thousands more;
- attacked hospitals and ambulances and killed dozens of healthcare workers;
- blocked aid, attacked a United Nations aid convoy, and shelled a shelter belonging to Doctors Without Borders (MSF);

¹ Amnesty International, January 26, 2024, "Israel must comply with key ICJ ruling ordering it do all in its power to prevent genocide against Palestinians in Gaza," <https://www.amnesty.org/en/latest/news/2024/01/israel-must-comply-with-key-icj-ruling-ordering-it-do-all-in-its-power-to-prevent-genocide-against-palestinians-in-gaza/>

- increased military operations in the West Bank and continued airstrikes on sites in Lebanon and Syria; and
- proposed a ground invasion of Rafah.

In the Gaza strip, as of February 23, 2024:²

- 38,066 Palestinians have been killed, and 71,220 are injured, and tens of thousands more are missing;³
- 2 million Palestinians have been displaced;
- 99,600 homes have been destroyed, while 241,400 have been partially destroyed;
- 406 schools, 613 mosques, and 3 churches have been damaged;
- and 3,120 Palestinianians have been detained or disappeared.⁴

We condemn the Israeli government's intensification of its siege of Gaza, blocking access to water, food, fuel, electricity, and medicine in an act of collective punishment. Hundreds of thousands of civilians are at grave risk of starvation and deadly disease.

We condemn the US government's veto of an immediate humanitarian ceasefire as well as the ongoing aid to assist the Israeli government's military actions in Gaza.

We call on the US government to end its military aid of the Israeli government and to fully restore UNRWA funding to aid Palestinians. The US government must stop sending the Israeli military more weapons.

We call on the Israeli government to grant access and safety to United Nations and humanitarian agencies to fulfill their duties. We need immediate humanitarian access for Gaza and adherence to international humanitarian and human rights law.

We agree on the following:

- There must be an end to indiscriminate fire.
- A comprehensive arms embargo is needed.
- The Israeli government must end its occupation of Palestinian territory and its blockade of Gaza.
- Elected Palestinian leaders now held as political prisoners must be freed.
- Palestine must be recognized as a nation state.

² Euro-Med Human Rights Monitor, <http://euromedmonitor.org>. Number killed includes: 130 journalists, over 700 healthcare professionals, and 14,350 children.

³ Updated numbers of those missing are unavailable right now because Gaza has been cut off from the Internet.

⁴ This Minute is limited to mainly discussing the current flare up in the conflict in Gaza, but we also recognize that violence, settler incursion, and unjust imprisonment has also increased in the West Bank in recent months.

We suggest the following actions for Friends and allies:

- Find a protest or demonstration near you and show up.
- Call and/or write to your congressional representatives, senators, and the president. You could use and share a form letter such as this one from Jewish Voice for Peace:
<https://www.jewishvoiceforpeace.org/resource/call-congress-support-ceasefire/>
- Support ceasefire statements from whatever organizations or groups you're already part of.
- Find a way to participate in boycotts, divestment, and sanctions. More information is available at bdsmovement.net.
- Write a letter to the editor.
- Donate to an organization that is already in Gaza doing work there, such as Doctors without Borders and UNRWA.
- Join with the FCNL (Friends Committee on National Legislation) in their ceasefire efforts.
- Quakers have long participated in arrestable actions and civil disobedience such as stopping weapons transport. Get involved.
- Think creatively about something you can try (no matter how small it might seem) and try it!
