

Ballon Busters

Objective

To be the last one with an unpopped balloon.

Equipment Needed

- 1 inflated balloon per student
- 1 paper plate per student

How to Play

1. Give each player an inflated balloon and a paper plate.
2. Choose two students to be the “busters.” Busters do not receive a balloon or plate.
3. The goal of the busters is to pop any balloons that hit the floor.
4. All other players use their paper plates to keep their balloons in the air.
5. If a player’s balloon hits the floor, they may use the paper plate to get it back in the air, but if a buster catches the balloon on the ground first, the buster pops it.
6. Any player whose balloon is popped becomes a new buster.
7. Continue playing until only one player remains with an unpopped balloon.

Winning

The last player with an unpopped balloon is the winner.

Pro Tips

- Remind players to be gentle with the balloons and avoid swinging the paper plates too hard.

- For a fun twist, add obstacles or allow busters to move around quickly to make balloon-saving more challenging.
- Consider using music to increase the game's intensity and excitement.
