

Seattle Transportation Benefit District

The Seattle Transportation Benefit District (TBD), [RCW 36.73](#), can be used to expand Link. Right now, it's being used to fund King County Metro operations, however, there are plans to run the next Metro funding TBD at the county level instead of the city level. That will leave the city TBD available to be used to fund Link. Though (as far as we know) it hasn't been used this way in the past, it's possible to bond against the TBD.
