

CCR EO EL Board report for 9/27/21

Preschool Promise programs are starting this month, and Corina has been checking in with them as to their needs for the school year. She is also working on her Pyramid model coaching training as well.

All staff will be starting Essential Fellowship series in November with two other CCRR regions. This week staff will be taking a new Train the Trainer for the ODHS Orientation training with the new changes coming from the state in regards to ERDC providers and rates. All staff will also be participating in webinars regarding helping providers fill out the Reopening and Stabilization grants that are going to providers from the Federal ARPA funds.

We are working with NEODD to bring a four-part business management series for providers in both English and Spanish in November to hopefully help providers to use sound business practices when setting rates and keeping records.

TVCC starts today, and we have 12 providers starting the new cohort.

Nancy will be launching a Spanish FCCN in October, and Dione launched her infant/toddler network this month. We are still recruiting for all Networks, and we still have a position open in Wallowa, and would like to launch a Wallowa specific network there as well.
