

## CEMI Modular Synth Information

<https://www.modulargrid.net/e/racks/view/2372178> // Modular Grid Version of System

Make an account with Modular Grid, then go to the rack from the link above, duplicate the rack, then add some patches! You can comment on the original rack or on this document if there are issues with modules that should be noted. I am also putting a lot of numbers at the bottom of the document, paste a link to your new patches here with your name and its name, and then people can look at example patches for this rack. Use Knob Markers as well!
