October 2025

Dear Pickerington Families,

This fall, 2nd and 3rd grade students will be administered whole grade testing for the purposes of the identification of gifted students. They will be administered the Naglieri for cognitive identification. The results of these assessments will be used to inform teachers of student achievement in comparison to national norms and to identify students as gifted and talented. They will also be used to determine placement in gifted programming that Pickerington Local Schools has available.

2nd grade will be testing the week of November 10th- 14th. For 3rd grade testing will be the week of November 17th-21st. **We respectfully ask that you do not schedule appointments during this test.** Results of the assessments will be available once the scores are reported back to the district.

If you have any questions, please view the Pickerington Local School District's Gifted Education website. The website can be found at https://www.plsd.us/academic-services/gifted-services

If you have any questions, please contact gifted services coordinator Todd Stanley at Todd_Stanley@plsd.us.

Thanks,

Todd Stanley
Gifted Services Coordinator
