- Video Opens to possibilities of Dual Exposure (discuss if we have time)
- Video typically converts faster and higher than any other medium
- Video is easy, you just haven't realized it yet… which is why you're listening in
- With video you can build 2 types of lists (more on that in the bonus content at the end)
- **Types of video** (Mainly focus on Youtube but will briefly cover using the same videos for Facebook)
  - Talking Head Videos
  - White board videos
  - Explainer videos
  - Presentation style videos (focusing these due to simplicity and ease of creation)
- **What can video be used for (just a few ideas)**
  - Demonstrations
  - Testimonials (social proof for sales)
  - Demonstrate your expertise/authority
  - Educate about your product or service
  - Training/Teach/Inform
  - Interviews
  - Vlogs
  - Webinars
  - Presentations

Most important step to getting traffic with video

Content and Keyword Research is the key
- Choose Targeted keyword phrases with intent
- 3 types of intent (Article explaining http://www.wordstream.com/keyword-intent)
    - Informational - to get additional information
    - Navigational - to find a specific website or content
    - Transactional - Buy, sign up/register, take action
    - Link to my spreadsheet https://docs.google.com/spreadsheets/d/1CddpRXMWb7wEmYe0U1isZ9YoQYCOk4IPcUZ6fZHTOYY/edit?usp=sharing

Want to create content around what's popular & actively being searched for
How to research what's popular
- Tools
    - Google Trends
    - Twitter/ Twitter Trends
    - **Answer The Public** <<== GOLD
    - Google Suggest
    - Google Recommended (at bottom of searches)
    - Yahoo Suggest
- Searching for intent based keyword phrases (based on the goal of your video)
- **Bonus Tools:**
    - Google keyword tool (for advanced options)
    - Keywordtool.io (Makes finding Google Suggestions easy)
        - Has frequently asked questions too
    - For Youtube quick research (Chrome extension). Tube Buddy

Keywords are important because we'll use popular phrases in the title/description of the video and tags to attract our audience and generate leads

#1 Key to any successful video (get this wrong and you're sure to fail)

It's all in the Script, get this wrong and your videos will not get engagement and you won't get as many leads or sales

Video scripts and templates will be provided in the members area for different types of videos

o Basic elements of a video script (for normal/informational/Educational videos)
These videos are great to gain trust, get attention and qualify your viewer, all without being push or salesy and you can sneak in a soft sell at the end. **Best Practice: It's best to align your video content with the appropriate lead magnet OR product**

- **Script Template (Focus on 1 concept/idea)**
  - Get to point - Tell your viewer the goal of the video
    - Aka tell them what you're going to tell them
  - Short 5 second wiz bang intro (*optional)
  - Short intro (Who are you, what do you do)
  - Tell them to subscribe & what to expect when they subscribe (***optional but highly recommended**)
    - facebook/Youtube
  - Provide the content you promised (1 idea)
    - Tell them what you told them you were going to tell them
  - Recap (tell them what you told them)
  - <u>**MOST IMPORTANT:**</u> Call to action (Based on the goal)
    This is where you get them to join your list!
    - **Call Phone number**
    - **Visit website**
    - Watch other videos
    - **Subscribe to the channel**
    - Buy something
    - **Subscribe to your mailing list or lead magnet**
    - Like/Share/Comment
  - **Video Listbuilding For Youtube:** Utilize <u>cards</u>, <u>End cards</u> and and <u>annotations</u> to help accomplish push customers to your website. Also put the link in the description and tell customers to click there and why
  - **Video Listbuilding For Facebook:** Tell viewer to click the link at the end of the video or in the post description to get your stuff.

How to create professional videos within any budget - even if you have a face for radio and a voice for a silent movie

I do not encourage trying to learn how to create fancy videos unless you are creative. I recommend outsourcing the work and doing what you're already proficient at as well as focusing on growing your list and increasing your sales.

How to create presentation style videos quickly and for free (yourself)
Screen Recording Software Recommended:
- **Screencast-OMatic**
  Price: $18 for the year
  Ease of use: Newbie friendly
  Notes: Great, easy to understand software with great training videos (5 mins or less each), great support and comparable to Camtasia. No video editing experience required

- **Jing Project**
  Price: FREE for 5 minute videos or less
  Ease of use: Dumb Easy
 **Notes:** Great for testing the waters, easy to use no instructions required, great for short videos under 5 minutes.

Presentation Software Recommended:
- **Google Presentation**
  Price: Free
  Ease of use: Easy but takes getting used to if you're used to powerpoint

- **Microsoft Powerpoint**
  Price: Free with most PCs
  Ease of use: Easy, industry standard

- **Keynote**
  Price: Free with MAC
  Ease of use: Never used, I'm not a Mac guy but I assume it's easy since it's so widely used :)

Instructions to create a presentation video yourself:
1. Create your presentation based on the content you want to introduce to the market
   a. This presentation should be based on the appropriate script (as discussed in the previous section)
2. Fire up your screen recording application
   a. You can buy a lavalier mic on amazon or simply use the internal mic on your computer
3. Load up your presentation and narrate each slide, changing slides when needed
4. Be sure to provide a call to action at the end of the video. "Remember you want to build your list"
5. Upload your video to Youtube, Google or your Website

[Here's a quick tutorial I created explaining how to use Google Presentation and JIng](#) to create free presentation videos quickly. Remember, the presentation must be based on a good script.

Using Screencast-O-Matic is my preferred method of creating presentation videos because you can add elements, text, filters, and edit all within the interface

How to create professional videos without getting on camera or using your own voice.

How to create affordable spokesperson videos with ease:
You can charge BIG money for these types of videos if you are a consultant. These types of videos I have found work best if you or your client wants to sell or explain a product or service but isn't comfortable on camera or has no desire to get on camera but wants to leverage the power of video.

WARNING: DO NOT USE SPOKESPERSON VIDEOS FOR FAKE TESTIMONIALS, THE IMPACTS WHEN YOU GET FOUND OUT CAN BE DISASTROUS

1. Write a script for the actor/actress
   a. Be sure to include any special instructions to the actor such as
      i. Pauses
      ii. Hand gestures
      iii. Head or body movements
      iv. Clothing suggestions
      v. Accents
      vi. etc
   b. Determine if you want the actor or actress to shoot the video:
      i. Using a green screen so you can modify the background
      ii. In a certain setting/backdrop
      iii. On a plain color background
      iv. In HI-Def
      v. On a mobile device
      vi. Etc
      vii. Adding Music
2. Find an actor/actress that fits your video needs
   a. Locate spokes persons at the following places:
      i. Google ([voice spokesperson service](#))
      ii. Look on [Craigslist/Gigs/](#)Talent Gigs
      iii. [Fiverr](#)
      iv. [People Per Hour](#)
      v. [Odesk](#)
3. Edit the final video as needed. Edits such as:
   a. Adding Text/images to the video
   b. Adding Music
   c. Changing green screen to desired background
   d. Making minor adjustments
   e. Free Resources to Edit Videos
      i. Screencast - O - Matic can be used to make video edits although it isn't free
      ii. [Shotcut](#) (I use this tool to change backgrounds and do in depth editing) This tool requires you to understand video editing but they do have a tutorial and once you get the hang of it it's extremely useful. This is one of my favorite tools.

iii. [Windows Movie Maker](): This usually comes free with windows, I don't use this anymore but it is very user friendly and made for the newbie. Definitely recommend if just starting out.
