

LegalThings One

Blockchain for Decentralized Workflows

IN PROGRESS

This initial draft is no longer available. While working on the product and by talking to (potential) customers we learned a lot about what we *should* be building.

New whitepapers will be released shortly to explain this in detail.

- Visionary whitepaper
- Tokenomica
- Technical whitepaper

Sorry for the inconvenience. Please feel free to ask questions on Telegram [@LegalThingsOne](https://t.me/LegalThingsOne).

- Arnold Daniels & the entire LegalThings team
