

**SL: goldmines all over the world.**

Hey, there (name),

I admire how you started your dropshipping business from scratch and turned it into a 6 figures business without anyone mentoring you and sharing your knowledge with people through your course after seeing your video about how you run your ads without the usual way through tik tok and picking products stood out for me.

I saw your website explaining every detail about your course and testimonials to prove it, it's all done correctly and I think a newsletter will increase your conversion rate and open doors for potential clients who hesitate.

I've implanted this sequence for you to use, and we can discuss more details over a call.

My best regards.

Ahmed Elwaleed.
