

## Petition for Action

I am urging the Michigan legislature, and my representatives in particular, to take action **NOW** to stop political corruption, protect the integrity of our elections, and to restore confidence in our democracy.

**The people of Michigan are tired of:**

- Candidate viability decided by who raises the largest war chest from big money elites.
- Our voices are being drowned out in our elections by big, special interest money.
- The increasing dominance of out-of-state money interfering in state races.
- Dark/secret money groups spreading disinformation and inflammatory messaging.
- Secret money enables foreign interference in our elections.
- Our elected officials have to prioritize fundraising over the needs of constituents.
- Legalized political money laundering.
- Numerous legal ways for money to corrupt elected officials and our legislatures.

**I am respectfully asking that you:**

- Support legislation requiring disclosure of all donors and speakers in Michigan elections.
- Support a legislative resolution urging all members of our congressional delegation to support an amendment to the US Constitution restoring our rights to reasonably regulate campaign money and messaging.
