## **ABSTRACT**

The abstract, should be written in English, is a concise summary in Arial 11 with single spacing, limited to 250 words. It covers the key aspects of the document, including the introduction, employed research methods, obtained results, and concluding remarks. Keywords, comprising 3-5 words, provide a quick reference to the main themes.

**Keywords** : comprising 3-5 words, provide a quick reference to the main themes.

## **INTRODUCTION**

The introduction encompasses the background, research problems, and research objectives. It is written in Arial 11, single-spaced, with no indentation for the first paragraph. Subtitles are omitted, and the manuscript is formatted in a single column aligned left and right. Starting from the second paragraph, a Special First Line indentation of 0.5" is employed.

## **METHOD**

The method section details the research design, respondents, research flow, research site, data analysis, and research ethics, with added permission for research ethics tests if applicable. No sub-subtitles are required. The first paragraph is without indentation, while subsequent paragraphs utilize a Special First Line indentation of 0.5". All text is written in Arial 11, single-spaced, in one column aligned left and right.

## RESULT

This section exclusively presents tables, each preceded by a short narrative description. Table titles are justified with the table open. Sub-subtitles are not needed.

Examples

**Table 2: Frequency Distribution of Student Grades**

Intervention Group Evaluation	Frequency	Percent
Did Not Pass	x	Y
Pass	Q	R
Total	O	P

**Table 3. Average Distribution of Student Grades**

Variable	Mean	Std. Deviation	Minimum Value	Max Value	N
X1	A	B	C	D	E

## DISCUSSION

The discussion section delves into the research findings. It is written in Arial 11, single-spaced, with no indentation for the first paragraph. Subtitles are omitted, and the manuscript is formatted in a single column aligned left and right. From the second paragraph onward, a Special First Line indentation of 0.5" is applied.

## CONCLUSION

This section contains conclusions of the research. It is written in Arial 11, single-spaced, with no indentation for the first paragraph. Subtitles are omitted, and the manuscript is formatted in a single column aligned left and right. Starting from the second paragraph, a Special First Line indentation of 0.5" is employed.

## RECOMMENDATION

This section presents recommendations proposed by the author based on the research findings. It is written in Arial 11, single-spaced, with no indentation for the first paragraph. Subtitles are omitted, and the manuscript is formatted in a single column aligned left and right. Starting from the second paragraph, a Special First Line indentation of 0.5" is employed.

## REFERENCES

The bibliography lists are arranged alphabetically based on the author's name using the Harvard System. Publications from the same author and year are differentiated with letters (a, b, c, etc.). Internet addresses are written in italic letters.
