### **Local arrangements**

Individual Health Care Plans are written in conjunction with the student and parents/carers and are stored on the child's school file on Google Drive and the Academy's management information system (MIS).

If a student is required to take control drugs/prescriptions in school, these medicines are stored in the medical rooms on both sites, The student should not be in possession of these.

Pupil allergy information is stored on the Academy's MIS. This can be accessed via the medical section of a pupil profile.

It is the responsibility of the parents/carers to inform of any medical conditions or allergies so that we can keep accurate and up to date records. This policy will be reviewed once a year.
