State Rules and Requirements

Your state requires insurance licensing candidates to complete preclicensing education. Your state’s Department of Insurance has approved ExamFX as a preclicensing education provider. By completing this course as directed, you will satisfy your state’s preclicensing education requirement and earn a Certificate of Completion.

Detailed state licensing requirements can be found at: <https://www.examfx.com/insurance-preclicensing-training/view-insurance-state-requirements>

You will also have to take the state license exam and apply for your license. Please enter your personally identifiable information (legal name, address, date of birth, etc.) as it appears on your government-issued ID. This information must exactly match the information on your state license application and your state exam registration. Discrepancies will delay the licensing process.

After you place your order, check your e-mail for your receipt and confirmation.

NEXT STEP

By clicking this button you are confirming you have read the state rules and requirements.

The Add-On products are optional. If you don't need them, you can click "Continue"
