

How can schools involve their wider school community in the adoption of new technologies?

One of the key reasons behind our significant improvement and investment in our IT at Swanlea has been the tremendous support we've had from the local authority.

From a very early meeting, just looking at online safety. It very quickly grew into a link that allowed us as a school to access some fantastic CPD for our staff and actually at a very strategic level, it allowed key members of our staff themselves to be involved in decision making at the heart of ICT in Tower Hamlets, and that linking of teaching staff and local authority resourcing and also wider community awareness and key stakeholder groups come together to actually deliver what we in Tower Hamlets are really proud of which is a fully integrated and inclusive ICT support package.
