You can also use the next-generation text-to-speech engine featuring 47 different voices, accents and over 24 languages and lip-sync the 3D avatars with the voice generated.

VIPBonus7: Azonpress App

Have a wordpress content website or blog but still love to profit with Amazon? This is a great WordPress plugin which lets you easily and flexibly embed Amazon products in your posts, pages or widgets. It uses the official Amazon Product Advertising API and you make money with every sale that comes about your site.

The usage is very simple. First configure the connection settings and then paste your Azan plug shortcode – that's it. You can display single products or bestseller lists with Azonplug. You can search (and show) products with specific categories, browse node id or a simple keyword.

One really great feature is the dynamic templates. You can create/customize your own template to display products directly from WordPress admin. That means we allow you to use custom templates using basic HTML and CSS only... pretty amazing
