Materials for Brother Olsen to make temple

Intro/Closing

Introduction

Thank you for joining us this evening for a Walk with Christ.

This walk is designed to be an individual sacred experience, and a place of personal revelation. Please respect the privacy of others by refraining from speaking and giving them space to feel and reflect. Youth and adult leaders are positioned along the path to assist you in any way you may need.

We invite you to listen intently to the messages that will be shared, to ponder these messages, and to have an open heart and mind to personal revelation. In the next room, you will be invited to write down a trial, hard thing, or weakness you are facing and want the help of Jesus Christ to overcome. As you listen and reflect on the messages that will be shared, we believe you will receive personal direction and learn how Christ may help you through this trial.

At the end of the walk, you will be given time to ponder and write down impressions, feelings, and direction you receive. We invite you to have the courage to act on any impressions you receive on the walk.

Thank you again for joining us this evening. Please proceed through this door.

Closing

Thank you for joining us this evening for a Walk with Christ. We hope you have felt impressions of love, hope, and peace from your Heavenly Father. If you received personal revelation that included direction for changes you feel you should make in your life, or steps you should take, we encourage you to act in faith on these impressions. We testify of the love of our Savior Jesus Christ, and his willingness to be our companion and walk with us throughout our life.
