INTRODUCTION

I, President of the Federal Republic of Dormia, am writing this "Confidential Document" Due to the end of the Dormian-Podlandish Alliance. The reason why the alliance has ended will be explained in this document.

THE REASON

The reason the Dormian-Podlandish Alliance will cease to exist is because of a video recorded by the leader of the "Freedomland Federation." The video shows footage of a Discord Call featuring the "Freedomland Federation" and the "Sovereign Benevolent Dictatorship of Podland." In the video, Freedomland asks a few questions to Podland, and the two questions he asked was, "How did you make your flag" and "What happened during the Podlandish-Objectland Crisis" Podland answered the first question saying, "I'm going to be completely honest with you, I used AI. you know, for the symbolism for the colors, i came up with the bird on my own." And for the second question, he responded with, "I'm just gonna do what China did with the Tiananmen Square and not say anything about it. The Dormian Government does not have access to said video, I just saw the video while on a meeting with Freedomland, Objectland, and Macroland. Due to this, the Dormian Government is working on demolishing the alliance and cutting all diplomatic ties with Podland.

WHAT COULD HAPPEN

When we leave the alliance, there is a good chance that Podland will declare war on us, and we already have a few war techniques. 1: Just Don't Recognize the War declaration. Simple as that. However, If Podland declares war on me, Podland's other allies could declare war on me as well, seeing that Podland has over 115 Allies, and a good majority of Podland's allies are my allies. In this case, we have nothing to do besides seeking help from other nations.
