

OCP Networking Common Module Interface Meeting Minutes

Date: 2016-05-10

Attendees

Steve Joiner (Finisar)
Carlos Cardenas (Cumulus)
Larry Fabiny (Finisar)
Don Bollinger (Finisar)
Jeff Catlin (Edgecore)
Pete Maricle (Edgecore)
Craig Thompson (Finisar)
Alex Wright (Ayar Labs)
Dustin Byford (Cumulus)

Action Items from Previous meeting

1. None

Agenda

- Proposed Agenda:
- 1. Introductions of attendees
- 2. Feedback on the OOM code run at OCP Interop last week.
- 3. Feedback on the OCP Spec that was posted to the OCP wiki 5 weeks ago?
- 4. Status of making OOM an OCP project.
- 5. What is next? Any new features needed?

Discussions

- For next steps, we discussed two areas:
- 1. Need to make writing to the modules more universally useable. We have successful demonstration but not in NOS releases.
- 2. Thoughts about going beyond the scope of OOM to the better descriptions of the process of setting up emerging next generation modules such as 25/28 G per channel and beyond.

Action Items

- Meet again in 2 weeks on Tuesday, May 24 at 11:00 AM PDT
- Be prepared to present at the OCP Engineering Workshop on June 2 in San Jose
