OSF HealthCare providers are qualified to perform sports physicals for youth. Our providers will conduct an exam and recommend additional tests and diagnosis if necessary. Following the session, your OSF provider will fill in the required medical forms for the athlete. **If your child is going into 6th or 9th grade, they will need to see their Primary Care provider, due to vaccination requirements.**

A sports physical helps to assure that the athlete is healthy and physically ready for their chosen activity such as baseball, football, soccer, or track. The purpose is to help minimize the risk of injury while your child plays.
