Adobe Creativity Institute

Description: [Join us for a day of learning](#) to understand the power of creativity, why it matters, and how to leverage it in your teaching helps to prepare students by giving them the 21st-century skills they need to succeed.

This course aims to help K12 educators use the principles of great instructional design to become creative thinkers, design innovative and engaging learning materials, and bring creativity into any class for all students.
Note: Please bring a laptop or chromebook to access Adobe Express through TeachHub.

Participants Will Learn:

- Why teaching for creativity is important (across all subjects and at all ages)
- How to design learning experiences that foster creativity
- How to learn and teach creative tools to use with students and embed into the curriculum
- How to curate resources designed by lead educators
- How to assess creative works and plan for a creative learning environment

Participants Will Earn:

- Adobe Creative Educator Level 1 & Level 2 certifications
- 6 hours of PD credit with Credly & CTLE
- Some awesome swag & lunch will be provided!

Facilitated By: Adobe EDU Evangelists
Audience: History, literature, math, science, or media educators. All grades!
Location: Adobe Times Square Office, 1540 Broadway, 18th Floor
