Purpose

The purpose of the “Tsunami Response Plans Committee” is to achieve our 2014 Goal of creating a Tsunami Evacuation Route Plan (TERP) ([Google Doc](#))

“Each member (will) chose one of seven areas to begin drafting a response plan for that area. There are two scenarios we will plan for in this exercise: 1) 30 foot wave arriving in 30 minutes, and 2) 30 foot wave arriving in 3 hours.” (From [MIEP Minutes](#))
