

Hospitality Scenarios

Scenario 1: A team of NASA aerospace engineers is designing a rocket to be used to transport materials to Mars. They invite a chemist from Japan to join their team and assist with propulsion optimization.

- *What does hospitality look like in this team?*
- *Provide some examples of inhospitable behaviors that would inhibit team functioning in this scenario.*

Scenario 2: Results from a pediatric patient's biopsy have just been received and a tumor board* is meeting to discuss the patient's case and consider treatment options. The patient's primary physician is scheduled to meet with the patient's family later in the day.

* group of doctors and other health care providers with different specialties that meets regularly at the hospital to discuss cancer cases and share knowledge

- *What does hospitality look like in this team?*
- *Provide some examples of inhospitable behaviors that would inhibit team functioning in this scenario.*
