

(REHOSTED) Trees MAP | Leafstar

Introduction:

Hi everyone! For those of you who don't know me, I'm Dusk and I am excited to present my 2nd warriors MAP Trees! This was previously hosted by my friend IndigoSplash, but due to certain circumstances, they are no longer able to host this MAP and so I offered to rehost it for them!

With that being said, more than half the MAP is completed already and so there will be limited parts available. We're aiming to have the completed MAP released sometime in late 2021 (November or December) and so there's plenty of time to work on your parts if you choose to join. However, I also don't want participants putting off their parts for months, and so we will be having mandatory WIP checks once a month. These are just a way of keeping track of everyone's progress and making sure they are staying proactive in working on their parts! Failing two WIP checks will result in getting kicked from the project, so please be sure to work diligently and post them early if you can!

Also be sure to go through the rules and **if you want to apply for a part, you can do so by leaving a comment in the video and including your discord id or joining the discord server and posting your work there! (In the application channel only.)** I will be choosing parts over the course of 3 days. Goodluck!

Rules:

- 1. 1920 x 1080 Pixels**
- 2. You must be able to complete your parts by December!**
- 3. You must be able to provide monthly WIPs!**
- 4. No watermarks, Signatures, etc.**
- 5. This MAP is scripted! It's pretty loose, so don't feel too afraid to add in a tiny bit of creative freedom!**
- 6. There are set designs for some cats. For any others, please use Nifty-Senpai's designs. And if Nifty doesn't have the design you're looking for either, you can make one up.**
- 7. This map is mostly animated. PMV/Tweening is allowed but not preferred and should be limited if at all.**
- 8. Joining the Discord Server is mandatory for communication/announcements, etc.**
