20 March 2026

Dear Residents,

I am pleased to introduce an exciting new community initiative that will soon be launched here at Bungalow Village Burleigh Waters.

Gabriele Wray, a student at Silkwood School, is undertaking a community project focused on sustainability and animal welfare and will be coordinating a Containers for Change recycling program within our village. This initiative has been carefully designed to support both environmental responsibility and charitable giving.

As part of this initiative, a dedicated Containers for Change collection bin will be installed at the community centre. Residents are invited to place eligible drink containers (such as cans, plastic bottles and glass bottles between 150ml and 3L, with barcodes intact) into the bin.

Each container collected earns a 10-cent refund, and all funds raised through this program will be donated directly to RSPCA Queensland, supporting the rescue, care, and rehoming of animals in need.

This initiative provides several important benefits for our community:

- Supporting animal welfare through donations to RSPCA Queensland
- Encouraging environmental sustainability by reducing landfill waste
- Strengthening community involvement through a shared purpose

With 179 homes in our village, even small contributions can make a significant difference. If each household participates, this program has the potential to raise substantial funds for charity while also benefiting the environment.

Gabriele will be overseeing the setup and coordination of this initiative, and I encourage all residents to support his efforts. Further details, including bin location and collection arrangements, will be shared shortly.

Thank you in advance for your participation and for helping make our community both environmentally responsible and socially impactful.

Yours faithfully

Natarlee Edwards

Village Manager – Hampshire Villages
